INDEX TO VOLUME 146*

Subject Index

A

Abdominal pain
Care at the front line: clinical decisions in the management of pediatric acid–related disorders (Gold). 2005;146:S1-2

Abnormalities
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Congenital cytomegalovirus infection: association between virus burden in infancy and hearing loss (Boppana et al). 2005;146: 817-23
Congenital malalignment of the great toenails mimicking onychomycosis (Perlis and Telang). 2005;146:575 (Insights)
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
Genetic syndromes mimic congenital infections (Sanchis et al). 2005;146:701-5 (CLO)
Screening for congenital cytomegalovirus infection: a tapestry of controversies (Demmler). 2005;146:162-4 (Editorial)
A serologic strategy for detecting neonates at risk for congenital cytomegalovirus infection (Naessens et al). 2005;146:194-7
Severe thrombocytopenia in a neonate with congenital HIV infection (Tighe et al). 2005;146:408-13 (Grand rounds)

Abuse, child; *see* **Child abuse**

Accidents
Accidents: a major child health problem (Barron). 2005;146:551 (50 years ago)

Acid-related disorders; *see* **Gastroesophageal reflux**

Acute lymphoblastic leukemia; *see* **Leukemia, lymphocytic, acute**

Acute retinal necrosis; *see* **Retinal necrosis syndrome, acute**

Adaptation, psychological
Satisfaction in different life domains in children receiving home parenteral nutrition and their families (Gottrand et al). 2005; 146:793-7

Adenitis; *see* **Lymphadenitis**

Adenoviruses, human
Adenovirus in the neonatal intensive care unit: formidable, forgotten foe (Piedra). 2005;146:447-8 (Editorial)
Outbreak of adenovirus type 30 in a neonatal intensive care unit (Faden et al). 2005;146:523-7

Adherence to therapy; *see* **Patient compliance**

Adiponectin
Reduced adiponectin and HDL cholesterol without elevated C-reactive protein: clues to the biology of premature atherosclerosis in Hutchinson-Gilford Progeria syndrome (Gordon et al). 2005;146:336-41

Administration, inhalation
Inhaled nitric oxide for preterm infants: a therapy in search of an indication? The search continues (Finer). 2005;146:301-3 (Editorial)
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
The safety and efficacy of nitric oxide therapy in premature infants (Hascoet et al). 2005;146:318-23

Adolescence
Adolescent growth spurts in female gymnasts (Thomis et al). 2005; 146:239-44
Comparison of non-invasive tests to detect *Helicobacter pylori* infection in children and adolescents: results of a multicenter European study (Mégraud and European). 2005;146: 198-203
Dyspepsia in adolescence (Kaul). 2005;146:448-50 (Editorial)
Financial compensation to adolescents for participation in biomedical research: adolescent and parent perspectives in seven studies (Scherer et al). 2005;146:552-8
First fracture is associated with increased risk of new fractures during growth (Goulding et al). 2005;146:286-8 (CLO)
Frequency of abnormal carbohydrate metabolism and diabetes in a population-based screening of adolescents (Dolan et al). 2005;146:751-8
Gastric sensory and motor dysfunction in adolescents with functional dyspepsia (Chitkara et al). 2005;146:500-5
The global spread of type 2 diabetes mellitus in children and adolescents (Pinhas-Hamiel and Zeitler). 2005;146:693-700
"Globesity" and units of measurements (Schwartz) (Letter); (Inge) (Reply). 2005;146:577
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005; 146:164-7 (Editorial)
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22
Initial presentation of childhood-onset systemic lupus erythematosus: a French multicenter study (Bader-Meunier et al). 2005; 146:648-53
Lifestyle-only intervention attenuates the inflammatory state associated with obesity: a randomized controlled study in adolescents (Balagopal et al). 2005;146:342-8
Longitudinal changes in bone density in children and adolescents with moderate to severe cerebral palsy (Henderson et al). 2005; 146:769-75
Modest lifestyle intervention attenuates the inflammatory state in children (Steinberger). 2005;146:308-9 (Editorial)
The overweight adolescent: clinical and ethical issues in intensive treatments for pediatric obesity (Cuttler et al). 2005;146:559-64 (Grand rounds)
A population-based comparison of BMI percentiles and waist-to-height ratio for identifying cardiovascular risk in youth (Kahn et al). 2005;146:482-8
Screening for abnormalities of carbohydrate metabolism in teens (Kaufman). 2005;146:721-3 (Editorial)
The Sibling Center: a pilot program for siblings of children and adolescents with a serious medical condition (Fanos et al). 2005; 146:831-5 (Invited commentary)
Speed of sound: relation to geometric characteristics of bone in children, adolescents, and adults (Fricke et al). 2005;146: 764-8
Treatment of adolescents with gynecomastia (Malozowski) (Letter); (Mauras) (Letter); (Lawrence et al) (Reply). 2005; 146:576-7

Adrenal gland diseases
Adrenal insufficiency in asymptomatic adrenoleukodystrophy patients identified by very long-chain fatty acid screening (Dubey et al). 2005;146:528-32

Adrenoleukodystrophy
Adrenal insufficiency in asymptomatic adrenoleukodystrophy patients identified by very long-chain fatty acid screening (Dubey et al). 2005;146:528-32

*January, pp. 1-154; February, pp. 155-298; March, pp. 299-444; April, pp. 445-578; May, pp. 579-716; June, pp. 717-882.

Adult
Social consequences in adult life of end-stage renal disease in childhood (Groothoff et al). 2005;146:512-7
African Americans; *see* **Race factors**
Age factors
Age-dependent differences in Nordic children with ITP (Rosthøj et al). 2005;146:151-2 (Letter)
Pediatric hypereosinophilic syndrome (HES) differs from adult HES (Katz et al). 2005;146:134-6 (CLO)
Safety of adult nerve agent autoinjectors in children (Aaron). 2005; 146:8-10 (Editorial)
AIDS dementia complex
Incidence and prevalence of HIV encephalopathy in children with HIV infection receiving highly active anti-retroviral therapy (HAART) (Chiriboga et al). 2005;146:402-7
Alagille syndrome
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
Alcohol
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Alternative medicine
Is there clinical evidence supporting the use of botanical dietary supplements in children? (Hrastinger et al). 2005;146:311-7
Amino acid
Some peculiarities of amino acid metabolism in infancy and early childhood (Fernhoff). 2005;146:111 (50 years ago)
Anabolic steroids
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5 (Editorial)
Growth hormone treatment enhances nutrition and growth in children with cystic fibrosis receiving enteral nutrition (Hardin et al). 2005;146:324-8
Androgens
Pubertal upregulation of erythropoiesis in boys is determined primarily by androgen (Hero et al). 2005;146:245-52
Anemia, sickle cell
Trap-door sternum in sickle cell disease (Knight-Madden et al). 2005;146:845 (Insights)
Anesthesia
Widening sedation availability (Barbi et al) (Letter); (Gozal and Gozal) (Reply). 2005;146:438-9
Antibiotics
Antibiotic prescribing for upper respiratory tract infection: the importance of diagnostic uncertainty (Arnold et al). 2005;146: 222-6
Helicobacter pylori infection: detection, investigation, and management (Czinn). 2005;146:S21-6
Invasive *Haemophilus influenzae* type B diseases in Bangladesh, with increased resistance to antibiotics (Saha et al). 2005;146: 227-33
Anticonvulsants
The correlation of deficits in IQ with midface and digit hypoplasia in children exposed in utero to anticonvulsant drugs (Holmes et al). 2005;146:118-22
Antiretroviral agents
Incidence and prevalence of HIV encephalopathy in children with HIV infection receiving highly active anti-retroviral therapy (HAART) (Chiriboga et al). 2005;146:402-7
Aortic coarctation
Coarctation of the aorta presenting as cerebral hemorrhage (Mehwald et al). 2005;146:293 (Insights)
Aphthous stomatitis; *see* **Stomatitis, aphthous**
Arachidonic acids
Growth and development of preterm infants fed infant formulas containing docosahexaenoic acid and arachidonic acid (Clandinin et al). 2005;146:461-8
Arrhythmia
Neonatal cholestasis associated with fetal arrhythmia (Sant'Anna et al). 2005;146:277-80 (CLO)
Arterioles
Endothelin-1 in human intestine resected for necrotizing enterocolitis (Nowicki et al). 2005;146:805-10
Arthritis, juvenile rheumatoid
Orbital varices diagnosed as episcleritis in a child with juvenile idiopathic arthritis (Misra and Edelsten). 2005;146:574 (Insights)
Preliminary diagnostic guidelines for macrophage activation syndrome complicating systemic juvenile idiopathic arthritis (Ravelli et al). 2005;146:598-604
ARTS; *see* **Reproduction techniques**
Asia
Permanent neonatal diabetes in an Asian infant (Porter et al). 2005; 146:131-3 (CLO)
Assisted death; *see* **Suicide, assisted**
Assisted reproduction; *see* **Reproduction techniques**
Asthma
Asthma and gastroesophageal reflux disease in children: exploring the relationship (Gold). 2005;146:S13-20
Care at the front line: clinical decisions in the management of pediatric acid–related disorders (Gold). 2005;146:S1-2
Effect of asthma intervention on children with undiagnosed asthma (Joseph et al). 2005;146:96-104
Family asthma management routines: connections to medical adherence and quality of life (Fiese et al). 2005;146:171-6
Financial compensation to adolescents for participation in biomedical research: adolescent and parent perspectives in seven studies (Scherer et al). 2005;146:552-8
Non-adherence with asthma therapy: more than just forgetting (Rand). 2005;146:157-9 (Editorial)
Obesity and asthma (Hasan and Nolan) (Letter); (To et al) (Reply). 2005;146:714-5
Patterns of quick-relief and long-term controller medication use in pediatric asthma (Walders et al). 2005;146:177-82
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Atherosclerosis
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Effects of exercise training on vascular function in obese children (Levent et al) (Letter); (Green et al) (Reply). 2005;146:296-7
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
Reduced adiponectin and HDL cholesterol without elevated C-reactive protein: clues to the biology of premature atherosclerosis in Hutchinson-Gilford Progeria syndrome (Gordon et al). 2005;146:336-41
Atropine
Pediatric poisoning from trimedoxime (TMB4) and atropine automatic injectors (Kozer et al). 2005;146:41-4
Autism
Diet, immunity, and autistic spectrum disorders (Murch). 2005; 146:582-4 (Editorial)
Evaluation of an association between gastrointestinal symptoms and cytokine production against common dietary proteins in children with autism spectrum disorders (Jyonouchi et al). 2005; 146:605-10
Autoantibodies
Need for quantitative assessment of transglutaminase autoantibodies for celiac disease in screening-identified children (Liu et al). 2005;146:494-9

Autoimmune diseases
Detection of autoimmune regulator gene mutations in children with type 2 autoimmune hepatitis and extrahepatic immune-mediated diseases (Lankisch et al). 2005;146:839-42 (CLO)
Autoimmune thyroiditis; *see* **Thyroiditis, autoimmune**
Autoinjectors; *see* **Injections**

B

Bacterial infections
Recurrent bacterial parotitis (Long). 2005;146:763 (50 years ago)
Bangladesh
Invasive *Haemophilus influenzae* type B diseases in Bangladesh, with increased resistance to antibiotics (Saha et al). 2005;146:227-33
Behavior
For school-age youth evidence based physical activity (Strong et al). 2005;146:732-7
Neuropsychological and psychosocial function in children with a history of snoring or behavioral sleep problems (Blunden et al). 2005;146:780-6
Physical activity recommendations: where do we go from here? (Dietz). 2005;146:719-20 (Editorial)
Treatment of interictal epileptiform discharges can improve behavior in children with behavioral problems and epilepsy (Pressler et al). 2005;146:112-7
Beverages
Are soft drinks a scapegoat for childhood obesity? (Murray et al). 2005;146:586-90 (Invited commentary)
Two-year follow-up results for Hip-Hop to Health Jr.: a randomized controlled trial for overweight prevention in preschool minority children (Fitzgibbon et al). 2005;146:618-25
Bile duct diseases
Cholestasis in children with portal vein obstruction (Gauthier-Villars et al). 2005;146:568-73 (CLO)
Biological markers
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Biopsy
Diagnosis of Hirschsprung's disease: a prospective, comparative accuracy study of common tests (de Lorijn et al). 2005;146:787-92
Blood
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Blood pressure
Low birth weight and blood pressure: the role of neonatal factors in the "small-baby-syndrome" (Harder and Plagemann) (Letter); (Gillman et al) (Reply). 2005;146:148-9
Blood transfusion
Viral hepatitis and its risk from blood and plasma transfusions (Buchanan). 2005;146:687 (50 years ago)
Body height
Growth hormone (GH) treatment to final height in children with idiopathic short stature: evidence for a dose effect (Wit et al). 2005;146:45-53
A population-based comparison of BMI percentiles and waist-to-height ratio for identifying cardiovascular risk in youth (Kahn et al). 2005;146:482-8
A tale of two centimeters (Rosenfeld). 2005;146:10-1 (Editorial)
Body mass index
Obesity and asthma (Hasan and Nolan) (Letter); (To et al) (Reply). 2005;146:714-5
A population-based comparison of BMI percentiles and waist-to-height ratio for identifying cardiovascular risk in youth (Kahn et al). 2005;146:482-8
Body weight
The overweight adolescent: clinical and ethical issues in intensive treatments for pediatric obesity (Cuttler et al). 2005;146:559-64 (Grand rounds)
Prevalence of overweight in children with developmental disorders in the continuous National Health and Nutrition Examination Survey (NHANES) 1999-2002 (Bandini et al). 2005;146:738-43
Bone density
Bone densitometry in pediatric populations: discrepancies in the diagnosis of osteoporosis by DXA and CT (Wren et al). 2005;146:776-9
Longitudinal changes in bone density in children and adolescents with moderate to severe cerebral palsy (Henderson et al). 2005;146:769-75
Quantitative bone analysis in children: current methods and recommendations (Specker and Schoenau). 2005;146:726-31
Speed of sound: relation to geometric characteristics of bone in children, adolescents, and adults (Fricke et al). 2005;146:764-8
Bone diseases, metabolic
Longitudinal changes in bone density in children and adolescents with moderate to severe cerebral palsy (Henderson et al). 2005;146:769-75
Botanical supplements; *see* **Medicine, herbal**
Boys; *see* **Males**
Brachycephaly; *see* **Head, abnormalities**
Brain
Coarctation of the aorta presenting as cerebral hemorrhage (Mehwald et al). 2005;146:293 (Insights)
Homozygous factor X gene mutations Gly380Arg and Tyr163delAT are associated with perinatal intracranial hemorrhage (Herrmann et al). 2005;146:128-30 (CLO)
Brain edema
Population-based study of incidence and risk factors for cerebral edema in pediatric diabetic ketoacidosis (Lawrence et al). 2005;146:688-92
Brain injuries
Patterns of brain injury in term neonatal encephalopathy (Miller et al). 2005;146:453-60
Brain stem
Parry-Romberg syndrome with fatal brain stem involvement (Sathornsumetee et al). 2005;146:429-31 (CLO)
Bronchiolitis
Isolation and bronchiolitis (Rosenberg) (Letter); (Muething) (Reply). 2005;146:846
Bronchopulmonary dysplasia
Lung function at term reflects severity of bronchopulmonary dysplasia (Hjalmarson and Sandberg). 2005;146:86-90
Pretreatment cortisol values may predict responses to hydrocortisone administration for the prevention of bronchopulmonary dysplasia in high-risk infants (Peltoniemi et al). 2005;146:632-7
Trends in severe bronchopulmonary dysplasia rates between 1994 and 2002 (Smith et al). 2005;146:469-73
Budesonide
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5

C

C-reactive protein
Reduced adiponectin and HDL cholesterol without elevated C-reactive protein: clues to the biology of premature atherosclerosis in Hutchinson-Gilford Progeria syndrome (Gordon et al). 2005;146:336-41
Calcineurin
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50

Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)

Canada

The morbidity and mortality conference in university-affiliated pediatric departments in Canada (Friedman et al). 2005;146:1-2

Obesity and asthma (Hasan and Nolan) (Letter); (To et al) (Reply). 2005;146:714-5

Population-based study of incidence and risk factors for cerebral edema in pediatric diabetic ketoacidosis (Lawrence et al). 2005; 146:688-92

Capillaries

Pulmonary capillaritis in children: a review of eight cases with comparison to other alveolar hemorrhage syndromes (Fullmer et al). 2005;146:376-81

Carbohydrates

Adverse effect of high added sugar consumption on dietary intake in American preschoolers (Kranz et al). 2005;146:105-11

Frequency of abnormal carbohydrate metabolism and diabetes in a population-based screening of adolescents (Dolan et al). 2005;146:751-8

Screening for abnormalities of carbohydrate metabolism in teens (Kaufman). 2005;146:721-3 (Editorial)

Carcinoma

Risk of hepatocellular carcinoma in liver mitochondrial respiratory chain disorders (Scheers et al). 2005;146:414-7 (CLO)

Cardiovascular diseases

Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)

Classification of cardiovascular malformations associated with neuroblastoma (Lin et al) (Letter); (George et al) (Reply); (Clark) (Reply). 2005;146:439-43

Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35

Genetic analyses in two extended families with deletion 22Q11 syndrome: importance of extracardiac manifestations (Shooner et al). 2005;146:382-7

Cardiovascular system

A population-based comparison of BMI percentiles and waist-to-height ratio for identifying cardiovascular risk in youth (Kahn et al). 2005;146:482-8

Catheterization, peripheral

Papaverine prolongs patency of peripheral arterial catheters in neonates (Griffin and Siadaty). 2005;146:62-5

Celiac disease

Need for quantitative assessment of transglutaminase autoantibodies for celiac disease in screening-identified children (Liu et al). 2005;146:494-9

Central nervous system diseases

Central nervous system hyperexcitability associated with glutamate dehydrogenase gain of function mutations (Raizen et al). 2005; 146:388-94

Cerebral edema; *see* **Brain edema**

Cerebral hemorrhage

Coarctation of the aorta presenting as cerebral hemorrhage (Mehwald et al). 2005;146:293 (Insights)

Cerebral palsy

Longitudinal changes in bone density in children and adolescents with modcrate to severe cerebral palsy (Henderson et al). 2005; 146:769-75

Chemotherapy; *see* **Drug therapy**

Chest pain

Esophageal diverticulum: a complication of histoplasmosis in children (Steiner et al). 2005;146:426-8 (CLO)

Chickenpox

Fatal varicella associated with selective natural killer cell deficiency (Etzioni et al). 2005;146:423-5 (CLO)

Uveitis associated with chickenpox (Long). 2005;146:381 (50 years ago)

Child, preschool

Adverse effect of high added sugar consumption on dietary intake in American preschoolers (Kranz et al). 2005;146:105-11

Are soft drinks a scapegoat for childhood obesity? (Murray et al). 2005;146:586-90 (Invited commentary)

Motor function at school age in children with a preschool diagnosis of developmental language impairment (Webster et al). 2005; 146:80-5

Prevalence, symptoms and outcome of constipation in infants and toddlers (Loening-Baucke). 2005;146:359-63

Selecting families for successful insulin pump therapy (Williams et al) (Letter); (DiMeglio et al) (Reply). 2005;146:713-4

Two-year follow-up results for Hip-Hop to Health Jr.: a randomized controlled trial for overweight prevention in preschool minority children (Fitzgibbon et al). 2005;146:618-25

Child abuse

Retinal haemorrhages as proof of abusive head injury (Trenchs et al) (Letter); (Laskey et al) (Reply). 2005;146:437-8

Child development

Extremely low birthweight neonates with protracted ventilation: mortality and 18-month neurodevelopmental outcomes (Walsh et al). 2005;146:798-804

Growth and development of preterm infants fed infant formulas containing docosahexaenoic acid and arachidonic acid (Clandinin et al). 2005;146:461-8

Child development disorders

Prevalence of overweight in children with developmental disorders in the continuous National Health and Nutrition Examination Survey (NHANES) 1999-2002 (Bandini et al). 2005;146: 738-43

Child-feeding practices; *see* **Diet**

Chlamydia

Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22

Chlorides

Conductivity determined by a new sweat analyzer compared with chloride concentrations for the diagnosis of cystic fibrosis (Barben et al). 2005;146:183-8

Testing diagnostic tests: why size matters (Funk and LeGrys). 2005;146:159-62 (Editorial)

Cholestasis

Cholestasis in children with portal vein obstruction (Gauthier-Villars et al). 2005;146:568-73 (CLO)

Neonatal cholestasis associated with fetal arrhythmia (Sant'Anna et al). 2005;146:277-80 (CLO)

Cholestasis, intrahepatic

Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)

Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35

Chromosome abnormalities

Child-feeding practices in children with Down syndrome and their siblings (O'Neill et al). 2005;146:234-8

Dizygotic twin pregnancy conceived with assisted reproductive technology associated with chromosomal anomaly, imprinting disorder, and monochorionic placentation (Yoon et al). 2005; 146:565-7 (CLO)

Midline defects in FG syndrome: does tethered spinal cord contribute to the phenotype? (Wang et al). 2005;146:537-41

Pediatricians beware: the age of ARTS is upon us (Hall). 2005;146: 450-2 (Editorial)

Chromosome deletion

Genetic analyses in two extended families with deletion 22Q11 syndrome: importance of extracardiac manifestations (Shooner et al). 2005;146:382-7

Chronic disease

Decisions in diagnosing and managing chronic gastroesophageal reflux disease in children (Hassall). 2005;146:S3-12

Citrulline
Serum citrulline levels correlate with enteral tolerance and bowel length in infants with short bowel syndrome (Rhoads et al). 2005;146:542-7
Clinical protocols
Isolation and bronchiolitis (Rosenberg) (Letter); (Muething) (Reply). 2005;146:846
Clonidine
Toxic clonidine ingestion in children (Spiller et al). 2005;146: 263-6
Coarctation of the aorta; *see* **Aortic coarctation**
Cognition
Patterns of brain injury in term neonatal encephalopathy (Miller et al). 2005;146:453-60
Communication
Improving departmental faculty meetings: an analysis of one department's approach (Stapleton and Pendergrass). 2005;146: 155-6
Compensation
Financial compensation to adolescents for participation in biomedical research: adolescent and parent perspectives in seven studies (Scherer et al). 2005;146:552-8
Congenital abnormalities; *see* **Abnormalities**
Constipation
Diagnosis of Hirschsprung's disease: a prospective, comparative accuracy study of common tests (de Lorijn et al). 2005;146: 787-92
Ineffectiveness of *Lactobacillus* GG as an adjunct to lactulose for the treatment of constipation in children: a double-blind, placebo-controlled randomized trial (Banaszkiewicz and Szajewska). 2005;146:364-9
Prevalence, symptoms and outcome of constipation in infants and toddlers (Loening-Baucke). 2005;146:359-63
Cor pulmonale; *see* **Pulmonary heart disease**
Corrections
Abnormal production of the tumor necrosis factor inhibitor etanercept and clinical efficacy of tumor in a patient with PAPA syndrome (Cortis et al) (2004;145:851-5). 2005;146:193
Improving follow-up for children with asthma after an acute emergency department visit (Smith et al) (2004;145:772-7). 2005;146:413
Urinary tract infection: is there a need for routine renal ultrasonography? (Beattie) (2004;145:682-3). 2005;146:85 (Abstract)
Correspondence; *see* **Letters**
Costs and cost analysis
Does newborn screening save money? The difference between cost-effective and cost-saving interventions (Grosse). 2005;146: 168-70 (Invited commentary)
Syncope in children: diagnostic tests have a high cost and low yield (Steinberg and Knilans). 2005;146:355-8
Craniofacial features; *see* **Face**; **Skull**
Creatine kinase
Creatine kinase MB (CK-MB) in benign paroxysmal vertigo of childhood: a new diagnostic marker (Rödöö and Hellberg). 2005; 146:548-51
Critical illness
Hyperglycemia and mortality (Izquierdo). 2005;146:5-7 (Editorial)
Persistent hyperglycemia in critically ill children (Faustino and Apkon). 2005;146:30-4
The Sibling Center: a pilot program for siblings of children and adolescents with a serious medical condition (Fanos et al). 2005; 146:831-5 (Invited commentary)
CT; *see* **Tomography, x-ray computed**
Current best evidence
Current best evidence. 2005;146:142-7, 433-6, 709-11
Cyclosporins
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Cystic fibrosis
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146:489-93
Conductivity determined by a new sweat analyzer compared with chloride concentrations for the diagnosis of cystic fibrosis (Barben et al). 2005;146:183-8
Epidemiology of cystic fibrosis-related diabetes (Marshall et al). 2005;146:681-7
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5 (Editorial)
Growth hormone treatment enhances nutrition and growth in children with cystic fibrosis receiving enteral nutrition (Hardin et al). 2005;146:324-8
Pancreatic enzyme therapy and clinical outcomes in patients with cystic fibrosis (Baker et al). 2005;146:189-93
Phenotypic and genetic characterization of patients with features of "nonclassic" forms of cystic fibrosis (Groman et al). 2005;146: 675-80
Policy issues for expanding newborn screening programs: the cystic fibrosis newborn screening experience in the United States (Wilfond and Gollust). 2005;146:668-74
Testing diagnostic tests: why size matters (Funk and LeGrys). 2005;146:159-62 (Editorial)
Cystourethrography
The changing approach to multicystic dysplastic kidney in children (Welch and Wacksman). 2005;146:723-5 (Editorial)
Routine voiding cystourethrography is of no value in neonates with unilateral multicystic dysplastic kidney (Ismaili et al). 2005;146: 759-63
Cytokines
Diet, immunity, and autistic spectrum disorders (Murch). 2005; 146:582-4 (Editorial)
Evaluation of an association between gastrointestinal symptoms and cytokine production against common dietary proteins in children with autism spectrum disorders (Jyonouchi et al). 2005; 146:605-10
Cytomegaloviruses
Congenital cytomegalovirus infection: association between virus burden in infancy and hearing loss (Boppana et al). 2005;146: 817-23
Screening for congenital cytomegalovirus infection: a tapestry of controversies (Demmler). 2005;146:162-4 (Editorial)
A serologic strategy for detecting neonates at risk for congenital cytomegalovirus infection (Naessens et al). 2005;146:194-7

D

Deletion, chromosome; *see* **Chromosome deletion**
Delivery
The wealth of information conveyed by gestational age (Leviton et al). 2005;146:123-7
Delivery of health care
Influence of public funding on health care for children (Michael and Lewy). 2005;146:717-8
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Densitometry, x-ray
Bone densitometry in pediatric populations: discrepancies in the diagnosis of osteoporosis by DXA and CT (Wren et al). 2005; 146:776-9
Quantitative bone analysis in children: current methods and recommendations (Specker and Schoenau). 2005;146:726-31
Speed of sound: relation to geometric characteristics of bone in children, adolescents, and adults (Fricke et al). 2005;146:764-8
Dermatitis
Kaposi varicelliform eruption in an infant (Menni et al). 2005;146: 432 (Insights)

Dermatomyositis
Fatal acute fibrinous and organizing pneumonia in a child with juvenile dermatomyositis (Prahalad et al). 2005;146:289-92 (CLO)
Development, child; *see* **Child development**
Developmental language impairment; *see* **Language development disorders**
Diabetes mellitus
Epidemiology of cystic fibrosis-related diabetes (Marshall et al). 2005;146:681-7
Permanent neonatal diabetes in an Asian infant (Porter et al). 2005; 146:131-3 (CLO)
Diabetes mellitus, insulin-dependent
Selecting families for successful insulin pump therapy (Williams et al) (Letter); (DiMeglio et al) (Reply). 2005;146:713-4
Diabetes mellitus, non-insulin-dependent
Frequency of abnormal carbohydrate metabolism and diabetes in a population-based screening of adolescents (Dolan et al). 2005; 146:751-8
The global spread of type 2 diabetes mellitus in children and adolescents (Pinhas-Hamiel and Zeitler). 2005;146:693-700
Screening for abnormalities of carbohydrate metabolism in teens (Kaufman). 2005;146:721-3 (Editorial)
Diabetic ketoacidosis
Population-based study of incidence and risk factors for cerebral edema in pediatric diabetic ketoacidosis (Lawrence et al). 2005; 146:688-92
Diagnosis
Antibiotic prescribing for upper respiratory tract infection: the importance of diagnostic uncertainty (Arnold et al). 2005;146: 222-6
Comparison of non-invasive tests to detect *Helicobacter pylori* infection in children and adolescents: results of a multicenter European study (Mégraud and European). 2005;146:198-203
Conductivity determined by a new sweat analyzer compared with chloride concentrations for the diagnosis of cystic fibrosis (Barben et al). 2005;146:183-8
Creatine kinase MB (CK-MB) in benign paroxysmal vertigo of childhood: a new diagnostic marker (Rödöö and Hellberg). 2005; 146:548-51
Decisions in diagnosing and managing chronic gastroesophageal reflux disease in children (Hassall). 2005;146:S3-12
Effect of asthma intervention on children with undiagnosed asthma (Joseph et al). 2005;146:96-104
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005; 146:164-7 (Editorial)
Preliminary diagnostic guidelines for macrophage activation syndrome complicating systemic juvenile idiopathic arthritis (Ravelli et al). 2005;146:598-604
Radiographic vertebral morphology: a diagnostic tool in pediatric osteoporosis (Mäkitie et al). 2005;146:395-401
Sex differences in patients referred for evaluation of poor growth (Grimberg et al). 2005;146:212-6
Testing diagnostic tests: why size matters (Funk and LeGrys). 2005;146:159-62 (Editorial)
Diagnosis, differential
Coarctation of the aorta presenting as cerebral hemorrhage (Mehwald et al). 2005;146:293 (Insights)
Diagnosis of Hirschsprung's disease: a prospective, comparative accuracy study of common tests (de Lorijn et al). 2005;146:787-92
Genetic syndromes mimic congenital infections (Sanchis et al). 2005;146:701-5 (CLO)
Initial presentation of childhood-onset systemic lupus erythematosus: a French multicenter study (Bader-Meunier et al). 2005; 146:648-53
Morquio's disease (Fernhoff). 2005;146:558 (50 years ago)
Orbital varices diagnosed as episcleritis in a child with juvenile idiopathic arthritis (Misra and Edelsten). 2005;146:574 (Insights)
Proximal focal femoral deficiency—a rare entity in the sonographic differential diagnosis of developmental dysplasia of the hip (Kayser et al). 2005;146:141 (Insights)
Diagnostic tests
Syncope in children: diagnostic tests have a high cost and low yield (Steinberg and Knilans). 2005;146:355-8
Diarrhea
Confirmation of an old adage: you find what you seek (Sherman and Tarr). 2005;146:11-3 (Editorial)
Prevalence of diarrheagenic *Escherichia coli* in acute childhood enteritis: a prospective controlled study (Cohen et al). 2005;146: 54-61
Diet
Adverse effect of high added sugar consumption on dietary intake in American preschoolers (Kranz et al). 2005;146:105-11
Child-feeding practices in children with Down syndrome and their siblings (O'Neill et al). 2005;146:234-8
Diet, immunity, and autistic spectrum disorders (Murch). 2005; 146:582-4 (Editorial)
Evaluation of an association between gastrointestinal symptoms and cytokine production against common dietary proteins in children with autism spectrum disorders (Jyonouchi et al). 2005; 146:605-10
High protein diet mimics hypertyrosinemia in newborn infants (Techakittiroj et al). 2005;146:281-2 (CLO)
Digestion
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146: 489-93
Disease
The wealth of information conveyed by gestational age (Leviton et al). 2005;146:123-7
Dizygotic twins; *see* **Twins, dizygotic**
Docosahexaenoic acids
Growth and development of preterm infants fed infant formulas containing docosahexaenoic acid and arachidonic acid (Clandinin et al). 2005;146:461-8
Dose-response relationship, drug
Growth hormone (GH) treatment to final height in children with idiopathic short stature: evidence for a dose effect (Wit et al). 2005;146:45-53
A tale of two centimeters (Rosenfeld). 2005;146:10-1 (Editorial)
Down syndrome
Child-feeding practices in children with Down syndrome and their siblings (O'Neill et al). 2005;146:234-8
Drug monitoring
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Drug resistance, microbial
Invasive *Haemophilus influenzae* type B diseases in Bangladesh, with increased resistance to antibiotics (Saha et al). 2005;146: 227-33
Drug therapy
The current management of hepatoblastoma: a combination of chemotherapy, conventional resection, and liver transplantation (Tiao et al). 2005;146:204-11
Immunodeficiency in children with acute lymphoblastic leukemia after completion of modern aggressive chemotherapeutic regimens (Brodtman et al). 2005;146:654-61
Drugs
Patterns of quick-relief and long-term controller medication use in pediatric asthma (Walders et al). 2005;146:177-82
DXA; *see* **Densitometry, x-ray**
Dyslipidemia; *see* **Lipids**
Dyspepsia
Dyspepsia in adolescence (Kaul). 2005;146:448-50 (Editorial)
Gastric sensory and motor dysfunction in adolescents with functional dyspepsia (Chitkara et al). 2005;146:500-5
Dysplasia of the hip, neonatal; *see* **Hip dislocation, congenital**

E

Economics
Does newborn screening save money? The difference between cost-effective and cost-saving interventions (Grosse). 2005;146:168-70 (Invited commentary)

Editorials
Adenovirus in the neonatal intensive care unit: formidable, forgotten foe (Piedra). 2005;146:447-8
The changing approach to multicystic dysplastic kidney in children (Welch and Wacksman). 2005;146:723-5
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7
A collaborative effort to define the epidemiology of pediatric inflammatory bowel disease: what can we learn from children with early-onset disease? (Moyer). 2005;146:7-8
Confirmation of an old adage: you find what you seek (Sherman and Tarr). 2005;146:11-3
Diet, immunity, and autistic spectrum disorders (Murch). 2005;146:582-4
Dyspepsia in adolescence (Kaul). 2005;146:448-50
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005;146:164-7
Hyperglycemia and mortality (Izquierdo). 2005;146:5-7
Increasing utilization of general pediatricians and pediatric subspecialists: can the workforce meet the need? (Fiser). 2005;146:3-5
Inhaled nitric oxide for preterm infants: a therapy in search of an indication? The search continues (Finer). 2005;146:301-3
Modest lifestyle intervention attenuates the inflammatory state in children (Steinberger). 2005;146:308-9
Non-adherence with asthma therapy: more than just forgetting (Rand). 2005;146:157-9
Pediatricians beware: the age of ARTS is upon us (Hall). 2005;146:450-2
Physical activity recommendations: where do we go from here? (Dietz). 2005;146:719-20
Post-traumatic stress and its effect on health outcomes in children (Grupp-Phelan and Zatzick). 2005;146:309-10
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2
Safety of adult nerve agent autoinjectors in children (Aaron). 2005;146:8-10
Screening for abnormalities of carbohydrate metabolism in teens (Kaufman). 2005;146:721-3
Screening for congenital cytomegalovirus infection: a tapestry of controversies (Demmler). 2005;146:162-4
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1
Surveying euthanasia practices: methods and morality (Frader). 2005;146:584-5
A tale of two centimeters (Rosenfeld). 2005;146:10-1
Testing diagnostic tests: why size matters (Funk and LeGrys). 2005;146:159-62

Education, medical
Changing needs for pediatric education in the twenty-first century (Stein and Stanton). 2005;146:445-6
Neonatal intubation: success of pediatric trainees (Leone et al). 2005;146:638-41

Electroencephalography
Treatment of interictal epileptiform discharges can improve behavior in children with behavioral problems and epilepsy (Pressler et al). 2005;146:112-7

Electron transport
Risk of hepatocellular carcinoma in liver mitochondrial respiratory chain disorders (Scheers et al). 2005;146:414-7 (CLO)

Emergency medical services
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7

Emphysema
The relationship of agenesis of the lung to emphysema and cor pulmonale (Whitsett). 2005;146:387 (50 years ago)

Encephalopathy
Patterns of brain injury in term neonatal encephalopathy (Miller et al). 2005;146:453-60

End-stage renal disease; *see* **Kidney failure, chronic**

Endothelins
Endothelin-1 in human intestine resected for necrotizing enterocolitis (Nowicki et al). 2005;146:805-10

Enema
Diagnosis of Hirschsprung's disease: a prospective, comparative accuracy study of common tests (de Lorijn et al). 2005;146:787-92

Enteral nutrition
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5 (Editorial)
Growth hormone treatment enhances nutrition and growth in children with cystic fibrosis receiving enteral nutrition (Hardin et al). 2005;146:324-8
Serum citrulline levels correlate with enteral tolerance and bowel length in infants with short bowel syndrome (Rhoads et al). 2005;146:542-7

Enteritis
Confirmation of an old adage: you find what you seek (Sherman and Tarr). 2005;146:11-3 (Editorial)
Prevalence of diarrheagenic *Escherichia coli* in acute childhood enteritis: a prospective controlled study (Cohen et al). 2005;146:54-61

Enterocolitis, pseudomembranous
Endothelin-1 in human intestine resected for necrotizing enterocolitis (Nowicki et al). 2005;146:805-10
Pneumatosis cystoides intestinalis in infancy (Warner). 2005;146:53 (50 years ago)

Enzymes
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146:489-93
Pancreatic enzyme therapy and clinical outcomes in patients with cystic fibrosis (Baker et al). 2005;146:189-93

Eosinophilia
Hypereosinophilia in red scaly infants with scabies (Haim et al). 2005;146:712 (Insights)
Pediatric hypereosinophilic syndrome (HES) differs from adult HES (Katz et al). 2005;146:134-6 (CLO)

Epidemiology
Children with early-onset inflammatory bowel disease (IBD): analysis of a pediatric IBD consortium registry (Heyman et al). 2005;146:35-40
A collaborative effort to define the epidemiology of pediatric inflammatory bowel disease: what can we learn from children with early-onset disease? (Moyer). 2005;146:7-8 (Editorial)
An epidemiological study of *Pseudomonas aeruginosa* (Bacillus pyocyaneus) in premature infants in the presence and absence of infection (Stoll). 2005;146:425 (50 years ago)
Epidemiology of cystic fibrosis-related diabetes (Marshall et al). 2005;146:681-7

Epilepsy
Treatment of interictal epileptiform discharges can improve behavior in children with behavioral problems and epilepsy (Pressler et al). 2005;146:112-7

Episcleritis; *see* **Scleritis**

Epithelium
Sodium transport in airway epithelium correlates with lung compliance in healthy newborn infants (Helve et al). 2005;146:273-6 (CLO)

Erythropoiesis
Pubertal upregulation of erythropoiesis in boys is determined primarily by androgen (Hero et al). 2005;146:245-52

Escherichia coli
Confirmation of an old adage: you find what you seek (Sherman and Tarr). 2005;146:11-3 (Editorial)
Prevalence of diarrheagenic *Escherichia coli* in acute childhood enteritis: a prospective controlled study (Cohen et al). 2005;146:54-61
Esophageal diverticulum
Esophageal diverticulum: a complication of histoplasmosis in children (Steiner et al). 2005;146:426-8 (CLO)
Esters
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Ethics
Children as clinical research subjects (Chesney). 2005;146:579-80
Financial compensation to adolescents for participation in biomedical research: adolescent and parent perspectives in seven studies (Scherer et al). 2005;146:552-8
The overweight adolescent: clinical and ethical issues in intensive treatments for pediatric obesity (Cuttler et al). 2005;146:559-64 (Grand rounds)
Surveying euthanasia practices: methods and morality (Frader). 2005;146:584-5 (Editorial)
Europe
Comparison of non-invasive tests to detect *Helicobacter pylori* infection in children and adolescents: results of a multicenter European study (Mégraud and European). 2005;146:198-203
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005;146:164-7 (Editorial)
Euthanasia
Physicians' willingness to grant requests for assistance in dying for children: a study of hypothetical cases (Vrakking et al). 2005;146:611-7
Surveying euthanasia practices: methods and morality (Frader). 2005;146:584-5 (Editorial)
Evidence-based medicine
For school-age youth evidence based physical activity (Strong et al). 2005;146:732-7 Physical activity recommendations: where do we go from here? (Dietz). 2005;146:719-20 (Editorial)
Exercise
Effects of exercise training on vascular function in obese children (Levent et al) (Letter); (Green et al) (Reply). 2005;146:296-7
For school-age youth evidence based physical activity (Strong et al). 2005;146:732-7
Physical activity recommendations: where do we go from here? (Dietz). 2005;146:719-20 (Editorial)
Exposure, prenatal; *see* **Prenatal exposure delayed effects**
Eye diseases
The control of oxygen therapy for the prevention of retrolental fibroplasia (Tarnow-Mordi). 2005;146:335 (50 years ago)
Herpes simplex virus type 2 acute retinal necrosis 9 years after neonatal herpes (Landry et al). 2005;146:836-8 (CLO)
Orbital varices diagnosed as episcleritis in a child with juvenile idiopathic arthritis (Misra and Edelsten). 2005;146:574 (Insights)
Uveitis associated with chickenpox (Long). 2005;146:381 (50 years ago)

F

Fabry disease
The kidney in Fabry disease (Raas-Rothschild et al). 2005;146:148 (Letter)
Face
Craniofacial features with growth hormone treatment (Carvalho et al) (Letter); (Segal et al) (Reply). 2005;146:295-6
Factor V
Liver transplantation as definitive treatment for a factor V Leiden mutation (Dunn et al). 2005;146:418-22 (CLO)
Factor X
Homozygous factor X gene mutations Gly380Arg and Tyr163delAT are associated with perinatal intracranial hemorrhage (Herrmann et al). 2005;146:128-30 (CLO)
Faculty
Improving departmental faculty meetings: an analysis of one department's approach (Stapleton and Pendergrass). 2005;146:155-6
Family
Genetic analyses in two extended families with deletion 22Q11 syndrome: importance of extracardiac manifestations (Shooner et al). 2005;146:382-7
Fatty acids
Adrenal insufficiency in asymptomatic adrenoleukodystrophy patients identified by very long-chain fatty acid screening (Dubey et al). 2005;146:528-32
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Feces
Comparison of non-invasive tests to detect *Helicobacter pylori* infection in children and adolescents: results of a multicenter European study (Mégraud and European). 2005;146:198-203
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005;146:164-7 (Editorial)
The time of passage of the first stool and first urine by the newborn infant (Green). 2005;146:211 (50 years ago)
Females
Adolescent growth spurts in female gymnasts (Thomis et al). 2005;146:239-44
Femur
Proximal focal femoral deficiency—a rare entity in the sonographic differential diagnosis of developmental dysplasia of the hip (Kayser et al). 2005;146:141 (Insights)
Fetal alcohol syndrome
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Fetal development
The wealth of information conveyed by gestational age (Leviton et al). 2005;146:123-7
Fetus
Neonatal cholestasis associated with fetal arrhythmia (Sant'Anna et al). 2005;146:277-80 (CLO)
Fever
Ten-month-old boy with persistent fever and a chest mass (Opsimos et al). 2005;146:267-72 (Grand rounds)
Tumor necrosis factor receptor–associated periodic syndrome in a young adult who had features of periodic fever, aphthous stomatitis, pharyngitis, and adenitis as a child (Saulsbury and Wispelwey). 2005;146:283-5 (CLO)
FG syndrome
Midline defects in FG syndrome: does tethered spinal cord contribute to the phenotype? (Wang et al). 2005;146:537-41
Financing, government
Influence of public funding on health care for children (Michael and Lewy). 2005;146:717-8
Fractures
First fracture is associated with increased risk of new fractures during growth (Goulding et al). 2005;146:286-8 (CLO)
France
Initial presentation of childhood-onset systemic lupus erythematosus: a French multicenter study (Bader-Meunier et al). 2005;146:648-53
Frasier syndrome
Frasier syndrome comes full circle: genetic studies performed in an original patient (Wang et al). 2005;146:843-4 (CLO)

G

Galactosidases
The kidney in Fabry disease (Raas-Rothschild et al). 2005;146:148 (Letter)
Gastric suction; *see* **Suction**

Gastroesophageal reflux
Asthma and gastroesophageal reflux disease in children: exploring the relationship (Gold). 2005;146:S13-20
Care at the front line: clinical decisions in the management of pediatric acid–related disorders (Gold). 2005;146:S1-2
Decisions in diagnosing and managing chronic gastroesophageal reflux disease in children (Hassall). 2005;146:S3-12
Gastrointestinal diseases
Dyspepsia in adolescence (Kaul). 2005;146:448-50 (Editorial)
Evaluation of an association between gastrointestinal symptoms and cytokine production against common dietary proteins in children with autism spectrum disorders (Jyonouchi et al). 2005;146:605-10
Gastric sensory and motor dysfunction in adolescents with functional dyspepsia (Chitkara et al). 2005;146:500-5
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Gastrointestinal system
Pancreatic enzyme therapy and clinical outcomes in patients with cystic fibrosis (Baker et al). 2005;146:189-93
Generalists; *see* **Physicians, family**
Genes
A common mutation in the surfactant protein C gene associated with lung disease (Cameron et al). 2005;146:370-5
Detection of autoimmune regulator gene mutations in children with type 2 autoimmune hepatitis and extrahepatic immune-mediated diseases (Lankisch et al). 2005;146:839-42 (CLO)
Hyperinsulinism of infancy associated with a novel splice site mutation in the *SCHAD* gene (Hussain et al). 2005;146:706-8 (CLO)
Genetics
Frasier syndrome comes full circle: genetic studies performed in an original patient (Wang et al). 2005;146:843-4 (CLO)
Genetic analyses in two extended families with deletion 22Q11 syndrome: importance of extracardiac manifestations (Shooner et al). 2005;146:382-7
Genetic syndromes mimic congenital infections (Sanchis et al). 2005;146:701-5 (CLO)
Phenotypic and genetic characterization of patients with features of "nonclassic" forms of cystic fibrosis (Groman et al). 2005;146:675-80
Gestational age
The wealth of information conveyed by gestational age (Leviton et al). 2005;146:123-7
Globesity; *see* **Obesity**
Glutamate dehydrogenase
Central nervous system hyperexcitability associated with glutamate dehydrogenase gain of function mutations (Raizen et al). 2005;146:388-94
Glutamine
Glutamine supplement with parenteral nutrition decreases whole body proteolysis in low birth weight infants (Kalhan et al). 2005;146:642-7
Gonorrhea
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22
Graft rejection
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Grand rounds
Grand rounds. 2005;146:267-72, 408-13, 559-64
Granulomatous disease, chronic
Ten-month-old boy with persistent fever and a chest mass (Opsimos et al). 2005;146:267-72 (Grand rounds)
Growth
Adolescent growth spurts in female gymnasts (Thomis et al). 2005;146:239-44
First fracture is associated with increased risk of new fractures during growth (Goulding et al). 2005;146:286-8 (CLO)
Growth and development of preterm infants fed infant formulas containing docosahexaenoic acid and arachidonic acid (Clandinin et al). 2005;146:461-8
Pancreatic enzyme therapy and clinical outcomes in patients with cystic fibrosis (Baker et al). 2005;146:189-93
Growth disorders
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5 (Editorial)
Growth hormone (GH) treatment to final height in children with idiopathic short stature: evidence for a dose effect (Wit et al). 2005;146:45-53
Growth hormone treatment enhances nutrition and growth in children with cystic fibrosis receiving enteral nutrition (Hardin et al). 2005;146:324-8
Sex differences in patients referred for evaluation of poor growth (Grimberg et al). 2005;146:212-6
A tale of two centimeters (Rosenfeld). 2005;146:10-1 (Editorial)
Growth hormone, pituitary; *see* **Somatotropin**
Guidelines
Preliminary diagnostic guidelines for macrophage activation syndrome complicating systemic juvenile idiopathic arthritis (Ravelli et al). 2005;146:598-604
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Gymnastics
Adolescent growth spurts in female gymnasts (Thomis et al). 2005;146:239-44
Gynecomastia
Treatment of adolescents with gynecomastia (Malozowski) (Letter); (Mauras) (Letter); (Lawrence et al) (Reply). 2005;146:576-7

H

Haemophilus influenzae
Invasive *Haemophilus influenzae* type B diseases in Bangladesh, with increased resistance to antibiotics (Saha et al). 2005;146:227-33
Hashitoxicosis; *see* **Hyperthyroidism; Thyroiditis, autoimmune**
HDL cholesterol; *see* **Lipoproteins, HDL cholesterol**
Head, abnormalities
Deformational brachycephaly in supine-sleeping infants (Graham et al). 2005;146:253-7
Management of deformational plagiocephaly: repositioning versus orthotic therapy (Graham et al). 2005;146:258-62
Head injuries
Retinal haemorrhages as proof of abusive head injury (Trenchs et al) (Letter); (Laskey et al) (Reply). 2005;146:437-8
Health
Post-traumatic stress and its effect on health outcomes in children (Grupp-Phelan and Zatzick). 2005;146:309-10 (Editorial)
Violence exposure and traumatic stress symptoms as additional predictors of health problems in high-risk children (Graham-Bermann and Seng). 2005;146:349-54
Health care delivery; *see* **Delivery of health care**
Health surveys
Prevalence of overweight in children with developmental disorders in the continuous National Health and Nutrition Examination Survey (NHANES) 1999-2002 (Bandini et al). 2005;146:738-43
Hearing loss
Congenital cytomegalovirus infection: association between virus burden in infancy and hearing loss (Boppana et al). 2005;146:817-23
Hearing tests
The Parkland Memorial Hospital experience in ensuring compliance with universal newborn hearing screening follow-up (Shoup et al). 2005;146:66-72

Height; *see* **Body height**
Helicobacter pylori
Care at the front line: clinical decisions in the management of pediatric acid–related disorders (Gold). 2005;146:S1-2
Comparison of non-invasive tests to detect *Helicobacter pylori* infection in children and adolescents: results of a multicenter European study (Mégraud and European). 2005;146:198-203
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005; 146:164-7 (Editorial)
Helicobacter pylori infection: detection, investigation, and management (Czinn). 2005;146:S21-6
Hemorrhage
Homozygous factor X gene mutations Gly380Arg and Tyr163delAT are associated with perinatal intracranial hemorrhage (Herrmann et al). 2005;146:128-30 (CLO)
Pulmonary capillaritis in children: a review of eight cases with comparison to other alveolar hemorrhage syndromes (Fullmer et al). 2005;146:376-81
Hepatitis
Detection of autoimmune regulator gene mutations in children with type 2 autoimmune hepatitis and extrahepatic immune-mediated diseases (Lankisch et al). 2005;146:839-42 (CLO)
Hepatitis, viral, human
Viral hepatitis and its risk from blood and plasma transfusions (Buchanan). 2005;146:687 (50 years ago)
Hepatoblastoma
The current management of hepatoblastoma: a combination of chemotherapy, conventional resection, and liver transplantation (Tiao et al). 2005;146:204-11
Hepatoma
Risk of hepatocellular carcinoma in liver mitochondrial respiratory chain disorders (Scheers et al). 2005;146:414-7 (CLO)
Herpes genitalis
Herpes simplex virus type 2 acute retinal necrosis 9 years after neonatal herpes (Landry et al). 2005;146:836-8 (CLO)
Hip dislocation, congenital
Proximal focal femoral deficiency—a rare entity in the sonographic differential diagnosis of developmental dysplasia of the hip (Kayser et al). 2005;146:141 (Insights)
Hirschsprung's disease
Diagnosis of Hirschsprung's disease: a prospective, comparative accuracy study of common tests (de Lorijn et al). 2005;146:787-92
Histoplasmosis
Esophageal diverticulum: a complication of histoplasmosis in children (Steiner et al). 2005;146:426-8 (CLO)
HIV
Incidence and prevalence of HIV encephalopathy in children with HIV infection receiving highly active anti-retroviral therapy (HAART) (Chiriboga et al). 2005;146:402-7
Severe thrombocytopenia in a neonate with congenital HIV infection (Tighe et al). 2005;146:408-13 (Grand rounds)
HIV encephalopathy; *see* **AIDS dementia complex**
Home parenteral nutrition; *see* **Parenteral nutrition, home**
Homozygote
Homozygous factor X gene mutations Gly380Arg and Tyr163delAT are associated with perinatal intracranial hemorrhage (Herrmann et al). 2005;146:128-30 (CLO)
Hospitalization
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Hospitals, pediatric
Criteria for identification of comprehensive pediatric hospitals and referral regions (Kanter and Dexter). 2005;146:26-9
Improved outcomes of outborn preterm infants if admitted to perinatal centers versus freestanding pediatric hospitals (Shah et al). 2005;146:626-31
Liberal visiting policies for children in hospitals (Green). 2005;146: 792 (50 years ago)
Hospitals, teaching
The morbidity and mortality conference in university-affiliated pediatric departments in Canada (Friedman et al). 2005;146:1-2
Humidity
Pseudomonas infections in infants associated with high-humidity environments (Long). 2005;146:758 (50 years ago)
Hutchinson-Gilford Progeria syndrome; *see* **Progeria**
Hydrocortisone
Pretreatment cortisol values may predict responses to hydrocortisone administration for the prevention of bronchopulmonary dysplasia in high-risk infants (Peltoniemi et al). 2005;146:632-7
Hydrogen-ion concentration
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146:489-93
Hydronephrosis
Defining significant hydronephrosis (Garel and Grignon). 2005; 146:437 (Letter)
Hyperammonemia
Central nervous system hyperexcitability associated with glutamate dehydrogenase gain of function mutations (Raizen et al). 2005; 146:388-94
Hypereosinophilic syndrome; *see* **Eosinophilia**
Hyperglycemia
Hyperglycemia and mortality (Izquierdo). 2005;146:5-7 (Editorial)
Persistent hyperglycemia in critically ill children (Faustino and Apkon). 2005;146:30-4
Hyperinsulinism
Central nervous system hyperexcitability associated with glutamate dehydrogenase gain of function mutations (Raizen et al). 2005; 146:388-94
Hyperinsulinism of infancy associated with a novel splice site mutation in the *SCHAD* gene (Hussain et al). 2005;146:706-8 (CLO)
Hyperthyroidism
Hashitoxicosis in children: clinical features and natural history (Nabhan et al). 2005;146:533-6
Hypertyrosinemia; *see* **Tyrosine**
Hypoplasia
The correlation of deficits in IQ with midface and digit hypoplasia in children exposed in utero to anticonvulsant drugs (Holmes et al). 2005;146:118-22
Hypothyroidism
Hashitoxicosis in children: clinical features and natural history (Nabhan et al). 2005;146:533-6
The role of leuprolide acetate therapy in triggering auto-immune thyroiditis (Haller and Schatz) (Letter); (Eyal and Rose) (Reply). 2005;146:294-5

I

IgG
Early intravenous gamma-globulin treatment for Kawasaki disease: the nationwide surveys in Japan (Wanitkun) (Letter); (Muta and Ishii) (Reply). 2005;146:149-50
Immunity
Detection of autoimmune regulator gene mutations in children with type 2 autoimmune hepatitis and extrahepatic immune-mediated diseases (Lankisch et al). 2005;146:839-42 (CLO)
Diet, immunity, and autistic spectrum disorders (Murch). 2005; 146:582-4 (Editorial)
Evaluation of an association between gastrointestinal symptoms and cytokine production against common dietary proteins in children with autism spectrum disorders (Jyonouchi et al). 2005; 146:605-10
Immunodeficiency
Immunodeficiency in children with acute lymphoblastic leukemia after completion of modern aggressive chemotherapeutic regimens (Brodtman et al). 2005;146:654-61

Incidence
Incidence and prevalence of HIV encephalopathy in children with HIV infection receiving highly active anti-retroviral therapy (HAART) (Chiriboga et al). 2005;146:402-7
Population-based study of incidence and risk factors for cerebral edema in pediatric diabetic ketoacidosis (Lawrence et al). 2005; 146:688-92
Infant
Impact of zinc supplementation on mental and psychomotor scores of children aged 12 to 18 months: a randomized, double-blind trial (Taneja et al). 2005;146:506-11
Infant speech development: a report of the study of one child by magnetic tape recordings (Saigal and Lane). 2005;146:536 (50 years ago)
Prevalence, symptoms and outcome of constipation in infants and toddlers (Loening-Baucke). 2005;146:359-63
Infant, diseases
Classification of cardiovascular malformations associated with neuroblastoma (Lin et al) (Letter); (George et al) (Reply); (Clark) (Reply). 2005;146:439-43
Coarctation of the aorta presenting as cerebral hemorrhage (Mehwald et al). 2005;146:293 (Insights)
Congenital cytomegalovirus infection: association between virus burden in infancy and hearing loss (Boppana et al). 2005;146: 817-23
Deformational brachycephaly in supine-sleeping infants (Graham et al). 2005;146:253-7
Hypereosinophilia in red scaly infants with scabies (Haim et al). 2005;146:712 (Insights)
Hyperinsulinism of infancy associated with a novel splice site mutation in the *SCHAD* gene (Hussain et al). 2005;146:706-8 (CLO)
Kaposi varicelliform eruption in an infant (Menni et al). 2005;146: 432 (Insights)
Management of deformational plagiocephaly: repositioning versus orthotic therapy (Graham et al). 2005;146:258-62
Pneumatosis cystoides intestinalis in infancy (Warner). 2005;146: 53 (50 years ago)
Pretreatment cortisol values may predict responses to hydrocortisone administration for the prevention of bronchopulmonary dysplasia in high-risk infants (Peltoniemi et al). 2005;146:632-7
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
Serum citrulline levels correlate with enteral tolerance and bowel length in infants with short bowel syndrome (Rhoads et al). 2005;146:542-7
Some peculiarities of amino acid metabolism in infancy and early childhood (Fernhoff). 2005;146:111 (50 years ago)
Ten-month-old boy with persistent fever and a chest mass (Opsimos et al). 2005;146:267-72 (Grand rounds)
Infant, low birth weight
Extremely low birthweight neonates with protracted ventilation: mortality and 18-month neurodevelopmental outcomes (Walsh et al). 2005;146:798-804
Glutamine supplement with parenteral nutrition decreases whole body proteolysis in low birth weight infants (Kalhan et al). 2005; 146:642-7
Inadequacy of IV vitamin A supplementation of extremely preterm infants? (Mactier et al) (Letter); (West and Cummings) (Letter); (Ambalavanan et al) (Reply). 2005;146:846-8
Low birth weight and blood pressure: the role of neonatal factors in the "small-baby-syndrome" (Harder and Plagemann) (Letter); (Gillman et al) (Reply). 2005;146:148-9
Infant, newborn
Improved outcomes of outborn preterm infants if admitted to perinatal centers versus freestanding pediatric hospitals (Shah et al). 2005;146:626-31
Low birth weight and blood pressure: the role of neonatal factors in the "small-baby-syndrome" (Harder and Plagemann) (Letter); (Gillman et al) (Reply). 2005;146:148-9
Neonatal intubation: success of pediatric trainees (Leone et al). 2005;146:638-41
The Parkland Memorial Hospital experience in ensuring compliance with universal newborn hearing screening follow-up (Shoup et al). 2005;146:66-72
Screening for congenital cytomegalovirus infection: a tapestry of controversies (Demmler). 2005;146:162-4 (Editorial)
A serologic strategy for detecting neonates at risk for congenital cytomegalovirus infection (Naessens et al). 2005;146:194-7
Sodium transport in airway epithelium correlates with lung compliance in healthy newborn infants (Helve et al). 2005;146: 273-6 (CLO)
The time of passage of the first stool and first urine by the newborn infant (Green). 2005;146:211 (50 years ago)
Infant, newborn, diseases
Adenovirus in the neonatal intensive care unit: formidable, forgotten foe (Piedra). 2005;146:447-8 (Editorial)
Can clinical signs identify newborns with neuromuscular disorders? (Vasta et al). 2005;146:73-9
The changing approach to multicystic dysplastic kidney in children (Welch and Wacksman). 2005;146:723-5 (Editorial)
Extremely low birthweight neonates with protracted ventilation: mortality and 18-month neurodevelopmental outcomes (Walsh et al). 2005;146:798-804
Herpes simplex virus type 2 acute retinal necrosis 9 years after neonatal herpes (Landry et al). 2005;146:836-8 (CLO)
High protein diet mimics hypertyrosinemia in newborn infants (Techakittiroj et al). 2005;146:281-2 (CLO)
Liver transplantation as definitive treatment for a factor V Leiden mutation (Dunn et al). 2005;146:418-22 (CLO)
Lung function at term reflects severity of bronchopulmonary dysplasia (Hjalmarson and Sandberg). 2005;146:86-90
Neonatal cholestasis associated with fetal arrhythmia (Sant'Anna et al). 2005;146:277-80 (CLO)
Neonatal renal venous thrombosis: clinical outcomes and prevalence of prothrombotic disorders (Marks et al). 2005;146:811-6
Outbreak of adenovirus type 30 in a neonatal intensive care unit (Faden et al). 2005;146:523-7
Papaverine prolongs patency of peripheral arterial catheters in neonates (Griffin and Siadaty). 2005;146:62-5
Patterns of brain injury in term neonatal encephalopathy (Miller et al). 2005;146:453-60
Permanent neonatal diabetes in an Asian infant (Porter et al). 2005; 146:131-3 (CLO)
Routine voiding cystourethrography is of no value in neonates with unilateral multicystic dysplastic kidney (Ismaili et al). 2005;146: 759-63
Severe thrombocytopenia in a neonate with congenital HIV infection (Tighe et al). 2005;146:408-13 (Grand rounds)
Infant, premature
Growth and development of preterm infants fed infant formulas containing docosahexaenoic acid and arachidonic acid (Clandinin et al). 2005;146:461-8
Improved outcomes of outborn preterm infants if admitted to perinatal centers versus freestanding pediatric hospitals (Shah et al). 2005;146:626-31
Inhaled nitric oxide for preterm infants: a therapy in search of an indication? The search continues (Finer). 2005;146:301-3 (Editorial)
The safety and efficacy of nitric oxide therapy in premature infants (Hascoet et al). 2005;146:318-23
Infant, premature, diseases
The control of oxygen therapy for the prevention of retrolental fibroplasia (Tarnow-Mordi). 2005;146:335 (50 years ago)
An epidemiological study of *Pseudomonas aeruginosa* (Bacillus pyocyaneus) in premature infants in the presence and absence of infection (Stoll). 2005;146:425 (50 years ago)
Pseudomonas infections in infants associated with high-humidity environments (Long). 2005;146:758 (50 years ago)
Trends in severe bronchopulmonary dysplasia rates between 1994 and 2002 (Smith et al). 2005;146:469-73

Infant food
Growth and development of preterm infants fed infant formulas containing docosahexaenoic acid and arachidonic acid (Clandinin et al). 2005;146:461-8
High protein diet mimics hypertyrosinemia in newborn infants (Techakittiroj et al). 2005;146:281-2 (CLO)
Infection
Congenital cytomegalovirus infection: association between virus burden in infancy and hearing loss (Boppana et al). 2005;146:817-23
An epidemiological study of *Pseudomonas aeruginosa* (Bacillus pyocyaneus) in premature infants in the presence and absence of infection (Stoll). 2005;146:425 (50 years ago)
Genetic syndromes mimic congenital infections (Sanchis et al). 2005;146:701-5 (CLO)
Incidence and prevalence of HIV encephalopathy in children with HIV infection receiving highly active anti-retroviral therapy (HAART) (Chiriboga et al). 2005;146:402-7
Pseudomonas infections in infants associated with high-humidity environments (Long). 2005;146:758 (50 years ago)
Inflammation
Lifestyle-only intervention attenuates the inflammatory state associated with obesity: a randomized controlled study in adolescents (Balagopal et al). 2005;146:342-8
Modest lifestyle intervention attenuates the inflammatory state in children (Steinberger). 2005;146:308-9 (Editorial)
Inflammatory bowel diseases
Children with early-onset inflammatory bowel disease (IBD): analysis of a pediatric IBD consortium registry (Heyman et al). 2005;146:35-40
A collaborative effort to define the epidemiology of pediatric inflammatory bowel disease: what can we learn from children with early-onset disease? (Moyer). 2005;146:7-8 (Editorial)
Infliximab
Infliximab treatment for refractory Kawasaki syndrome (Burns et al). 2005;146:662-7
Informed consent
Treatment of adolescents with gynecomastia (Mauras) (Letter); (Lawrence et al) (Reply). 2005;146:576-7
Inhaled administration; *see* **Administration, inhalation**
Injections
Inadequacy of IV vitamin A supplementation of extremely preterm infants? (Mactier et al) (Letter); (West and Cummings) (Letter); (Ambalavanan et al) (Reply). 2005;146:846-8
Pediatric poisoning from trimedoxime (TMB4) and atropine automatic injectors (Kozer et al). 2005;146:41-4
Safety of adult nerve agent autoinjectors in children (Aaron). 2005;146:8-10 (Editorial)
Insights
Insights. 2005;146:141, 293, 432, 574-5, 712, 845
Insulin
Racial and etiopathologic dichotomies in insulin hypersecretion and resistance in obese children (Preeyasombat et al). 2005;146:474-81
Insulin infusion systems
Selecting families for successful insulin pump therapy (Williams et al) (Letter); (DiMeglio et al) (Reply). 2005;146:713-4
Insulin resistance
Racial and etiopathologic dichotomies in insulin hypersecretion and resistance in obese children (Preeyasombat et al). 2005;146:474-81
Insurance, health
Influence of public funding on health care for children (Michael and Lewy). 2005;146:717-8
Intelligence tests
The correlation of deficits in IQ with midface and digit hypoplasia in children exposed in utero to anticonvulsant drugs (Holmes et al). 2005;146:118-22
Intensive care units, neonatal
Adenovirus in the neonatal intensive care unit: formidable, forgotten foe (Piedra). 2005;146:447-8 (Editorial)
Improved outcomes of outborn preterm infants if admitted to perinatal centers versus freestanding pediatric hospitals (Shah et al). 2005;146:626-31
Outbreak of adenovirus type 30 in a neonatal intensive care unit (Faden et al). 2005;146:523-7
Intercontinental Childhood ITP Study Group
Age-dependent differences in Nordic children with ITP (Rosthøj et al). 2005;146:151-2 (Letter)
Internship and residency
Changing needs for pediatric education in the twenty-first century (Stein and Stanton). 2005;146:445-6
Neonatal intubation: success of pediatric trainees (Leone et al). 2005;146:638-41
Intestinal diseases
Endothelin-1 in human intestine resected for necrotizing enterocolitis (Nowicki et al). 2005;146:805-10
Gastric suction at birth (Conklin et al) (Letter); (Anand et al) (Reply). 2005;146:152-3
Intrahepatic cholestasis; *see* **Cholestasis, intrahepatic**
Intubation
Neonatal intubation: success of pediatric trainees (Leone et al). 2005;146:638-41
Invited commentary
Invited commentary. 2005;146:168-70, 586-90, 831-5
ITP; *see* **Purpura, thrombocytopenic, idiopathic**

J

Japan
Early intravenous gamma-globulin treatment for Kawasaki disease: the nationwide surveys in Japan (Wanitkun) (Letter); (Muta and Ishii) (Reply). 2005;146:149-50
Juvenile arthritis; *see* **Arthritis, juvenile rheumatoid**

K

Kaposi varicelliform eruption
Kaposi varicelliform eruption in an infant (Menni et al). 2005;146:432 (Insights)
Kawasaki disease; *see* **Mucocutaneous lymph node syndrome**
Kidney diseases
The changing approach to multicystic dysplastic kidney in children (Welch and Wacksman). 2005;146:723-5 (Editorial)
Neonatal renal venous thrombosis: clinical outcomes and prevalence of prothrombotic disorders (Marks et al). 2005;146:811-6
Routine voiding cystourethrography is of no value in neonates with unilateral multicystic dysplastic kidney (Ismaili et al). 2005;146:759-63
Kidney failure, chronic
Social consequences in adult life of end-stage renal disease in childhood (Groothoff et al). 2005;146:512-7
Kidney transplantation
The kidney in Fabry disease (Raas-Rothschild et al). 2005;146:148 (Letter)
Killer cells, natural
Fatal varicella associated with selective natural killer cell deficiency (Etzioni et al). 2005;146:423-5 (CLO)

L

***Lactobacillus* GG**
Ineffectiveness of *Lactobacillus* GG as an adjunct to lactulose for the treatment of constipation in children: a double-blind, placebo-controlled randomized trial (Banaszkiewicz and Szajewska). 2005;146:364-9
Lactulose
Ineffectiveness of *Lactobacillus* GG as an adjunct to lactulose for the treatment of constipation in children: a double-blind, placebo-controlled randomized trial (Banaszkiewicz and Szajewska). 2005;146:364-9

Lamotrigine
Treatment of interictal epileptiform discharges can improve behavior in children with behavioral problems and epilepsy (Pressler et al). 2005;146:112-7
Language development disorders
Motor function at school age in children with a preschool diagnosis of developmental language impairment (Webster et al). 2005; 146:80-5
Legislation and jurisprudence
Children as clinical research subjects (Chesney). 2005;146:579-80
Letters
Age-dependent differences in Nordic children with ITP (Rosthøj et al). 2005;146:151-2 (Letter)
Classification of cardiovascular malformations associated with neuroblastoma (Lin et al) (Letter); (George et al) (Reply); (Clark) (Reply). 2005;146:439-43
Craniofacial features with growth hormone treatment (Carvalho et al) (Letter); (Segal et al) (Reply). 2005;146:295-6
Defining significant hydronephrosis (Garel and Grignon). 2005; 146:437 (Letter)
Early intravenous gamma-globulin treatment for Kawasaki disease: the nationwide surveys in Japan (Wanitkun) (Letter); (Muta and Ishii) (Reply). 2005;146:149-50
Effects of exercise training on vascular function in obese children (Levent et al) (Letter); (Green et al) (Reply). 2005; 146:296-7
Gastric suction at birth (Conklin et al) (Letter); (Anand et al) (Reply). 2005;146:152-3
"Globesity" and units of measurements (Schwartz) (Letter); (Inge) (Reply). 2005;146:577
Inadequacy of IV vitamin A supplementation of extremely preterm infants? (Mactier et al) (Letter); (West and Cummings) (Letter); (Ambalavanan et al) (Reply). 2005;146:846-8
Isolation and bronchiolitis (Rosenberg) (Letter); (Muething) (Reply). 2005;146:846
The kidney in Fabry disease (Raas-Rothschild et al). 2005;146:148 (Letter)
Low birth weight and blood pressure: the role of neonatal factors in the "small-baby-syndrome" (Harder and Plagemann) (Letter); (Gillman et al) (Reply). 2005;146:148-9
Obesity and asthma (Hasan and Nolan) (Letter); (To et al) (Reply). 2005;146:714-5
Retinal haemorrhages as proof of abusive head injury (Trenchs et al) (Letter); (Laskey et al) (Reply). 2005;146:437-8
The role of leuprolide acetate therapy in triggering auto-immune thyroiditis (Haller and Schatz) (Letter); (Eyal and Rose) (Reply). 2005;146:294-5
Selecting families for successful insulin pump therapy (Williams et al) (Letter); (DiMeglio et al) (Reply). 2005;146:713-4
Treatment of adolescents with gynecomastia (Malozowski) (Letter); (Mauras) (Letter); (Lawrence et al) (Reply). 2005; 146:576-7
Widening sedation availability (Barbi et al) (Letter); (Gozal and Gozal) (Reply). 2005;146:438-9
Leukemia, lymphocytic, acute
Immunodeficiency in children with acute lymphoblastic leukemia after completion of modern aggressive chemotherapeutic regimens (Brodtman et al). 2005;146:654-61
Leukocyte count
Ten-month-old boy with persistent fever and a chest mass (Opsimos et al). 2005;146:267-72 (Grand rounds)
Leuprolide
The role of leuprolide acetate therapy in triggering auto-immune thyroiditis (Haller and Schatz) (Letter); (Eyal and Rose) (Reply). 2005;146:294-5
Lifestyle
Lifestyle-only intervention attenuates the inflammatory state associated with obesity: a randomized controlled study in adolescents (Balagopal et al). 2005;146:342-8
Modest lifestyle intervention attenuates the inflammatory state in children (Steinberger). 2005;146:308-9 (Editorial)
Lipids
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
Lipoproteins
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
Lipoproteins, HDL cholesterol
Reduced adiponectin and HDL cholesterol without elevated C-reactive protein: clues to the biology of premature atherosclerosis in Hutchinson-Gilford Progeria syndrome (Gordon et al). 2005;146:336-41
Liver diseases
Detection of autoimmune regulator gene mutations in children with type 2 autoimmune hepatitis and extrahepatic immune-mediated diseases (Lankisch et al). 2005;146:839-42 (CLO)
Liver neoplasms
The current management of hepatoblastoma: a combination of chemotherapy, conventional resection, and liver transplantation (Tiao et al). 2005;146:204-11
Risk of hepatocellular carcinoma in liver mitochondrial respiratory chain disorders (Scheers et al). 2005;146:414-7 (CLO)
Liver transplantation
The current management of hepatoblastoma: a combination of chemotherapy, conventional resection, and liver transplantation (Tiao et al). 2005;146:204-11
Liver transplantation as definitive treatment for a factor V Leiden mutation (Dunn et al). 2005;146:418-22 (CLO)
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Low birth weight infant; *see* **Infant, low birth weight**
Low income population; *see* **Poverty**
Lumbar vertebrae
Radiographic vertebral morphology: a diagnostic tool in pediatric osteoporosis (Mäkitie et al). 2005;146:395-401
Lung
Sodium transport in airway epithelium correlates with lung compliance in healthy newborn infants (Helve et al). 2005;146: 273-6 (CLO)
Lung diseases
A common mutation in the surfactant protein C gene associated with lung disease (Cameron et al). 2005;146:370-5
Fatal acute fibrinous and organizing pneumonia in a child with juvenile dermatomyositis (Prahalad et al). 2005;146:289-92 (CLO)
Isolation and bronchiolitis (Rosenberg) (Letter); (Muething) (Reply). 2005;146:846
Lung function at term reflects severity of bronchopulmonary dysplasia (Hjalmarson and Sandberg). 2005;146:86-90
Pretreatment cortisol values may predict responses to hydrocortisone administration for the prevention of bronchopulmonary dysplasia in high-risk infants (Peltoniemi et al). 2005;146:632-7
Pulmonary capillaritis in children: a review of eight cases with comparison to other alveolar hemorrhage syndromes (Fullmer et al). 2005;146:376-81
The relationship of agenesis of the lung to emphysema and cor pulmonale (Whitsett). 2005;146:387 (50 years ago)
Trends in severe bronchopulmonary dysplasia rates between 1994 and 2002 (Smith et al). 2005;146:469-73
Lung function tests; *see* **Respiratory function tests**

Lupus erythematosus, systemic
Initial presentation of childhood-onset systemic lupus erythematosus: a French multicenter study (Bader-Meunier et al). 2005; 146:648-53
Lymphadenitis
Tumor necrosis factor receptor–associated periodic syndrome in a young adult who had features of periodic fever, aphthous stomatitis, pharyngitis, and adenitis as a child (Saulsbury and Wispelwey). 2005;146:283-5 (CLO)

M

Macrophage activation
Preliminary diagnostic guidelines for macrophage activation syndrome complicating systemic juvenile idiopathic arthritis (Ravelli et al). 2005;146:598-604
Magnetics
Infant speech development: a report of the study of one child by magnetic tape recordings (Saigal and Lane). 2005;146:536 (50 years ago)
Males
Pubertal upregulation of erythropoiesis in boys is determined primarily by androgen (Hero et al). 2005;146:245-52
Manometry
Diagnosis of Hirschsprung's disease: a prospective, comparative accuracy study of common tests (de Lorijn et al). 2005;146:787-92
Manpower
Changes in the proportion and volume of care provided to children by generalists and subspecialists (Freed et al). 2005;146:14-9
Comparing the supply of pediatric subspecialists and child neurologists (Werner and Polsky). 2005;146:20-5
Increasing utilization of general pediatricians and pediatric subspecialists: can the workforce meet the need? (Fiser). 2005; 146:3-5 (Editorial)
Mass screening
Adrenal insufficiency in asymptomatic adrenoleukodystrophy patients identified by very long-chain fatty acid screening (Dubey et al). 2005;146:528-32
Frequency of abnormal carbohydrate metabolism and diabetes in a population-based screening of adolescents (Dolan et al). 2005; 146:751-8
Need for quantitative assessment of transglutaminase autoantibodies for celiac disease in screening-identified children (Liu et al). 2005;146:494-9
Screening for abnormalities of carbohydrate metabolism in teens (Kaufman). 2005;146:721-3 (Editorial)
Maternal behavior
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Maternal-fetal exchange
The correlation of deficits in IQ with midface and digit hypoplasia in children exposed in utero to anticonvulsant drugs (Holmes et al). 2005;146:118-22
Fatty acid ethyl esters: quantitative biomarkers for maternal alcohol consumption (Bearer et al). 2005;146:824-30
Medicaid
Influence of public funding on health care for children (Michael and Lewy). 2005;146:717-8
Medications; *see* **Drugs**
Medicine, herbal
Is there clinical evidence supporting the use of botanical dietary supplements in children? (Hrastinger et al). 2005;146:311-7
Mental health
Impact of zinc supplementation on mental and psychomotor scores of children aged 12 to 18 months: a randomized, double-blind trial (Taneja et al). 2005;146:506-11
Metabolism
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
Frequency of abnormal carbohydrate metabolism and diabetes in a population-based screening of adolescents (Dolan et al). 2005; 146:751-8
Screening for abnormalities of carbohydrate metabolism in teens (Kaufman). 2005;146:721-3 (Editorial)
Some peculiarities of amino acid metabolism in infancy and early childhood (Fernhoff). 2005;146:111 (50 years ago)
Microspheres
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146:489-93
Miller, Steven Z
Untimely loss: lasting legacy (Morgenstern et al). 2005;146: 299-300
Minority groups
Are soft drinks a scapegoat for childhood obesity? (Murray et al). 2005;146:586-90 (Invited commentary)
Two-year follow-up results for Hip-Hop to Health Jr.: a randomized controlled trial for overweight prevention in preschool minority children (Fitzgibbon et al). 2005;146:618-25
Mitochondria
Risk of hepatocellular carcinoma in liver mitochondrial respiratory chain disorders (Scheers et al). 2005;146:414-7 (CLO)
Morals
Surveying euthanasia practices: methods and morality (Frader). 2005;146:584-5 (Editorial)
Morbidity
Effect of asthma intervention on children with undiagnosed asthma (Joseph et al). 2005;146:96-104
Improved outcomes of outborn preterm infants if admitted to perinatal centers versus freestanding pediatric hospitals (Shah et al). 2005;146:626-31
The morbidity and mortality conference in university-affiliated pediatric departments in Canada (Friedman et al). 2005;146:1-2
Morquio's disease; *see* **Mucopolysaccharidosis IV**
Mortality
Extremely low birthweight neonates with protracted ventilation: mortality and 18-month neurodevelopmental outcomes (Walsh et al). 2005;146:798-804
Fatal varicella associated with selective natural killer cell deficiency (Etzioni et al). 2005;146:423-5 (CLO)
Hyperglycemia and mortality (Izquierdo). 2005;146:5-7 (Editorial)
Improved outcomes of outborn preterm infants if admitted to perinatal centers versus freestanding pediatric hospitals (Shah et al). 2005;146:626-31
The morbidity and mortality conference in university-affiliated pediatric departments in Canada (Friedman et al). 2005;146:1-2
Parry-Romberg syndrome with fatal brain stem involvement (Sathornsumetee et al). 2005;146:429-31 (CLO)
Persistent hyperglycemia in critically ill children (Faustino and Apkon). 2005;146:30-4
Mothers
Long-term survival in severe combined immune deficiency: the role of persistent maternal engraftment (Tezcan et al). 2005;146: 137-40 (CLO)
Motor skills
Motor function at school age in children with a preschool diagnosis of developmental language impairment (Webster et al). 2005; 146:80-5
Patterns of brain injury in term neonatal encephalopathy (Miller et al). 2005;146:453-60
Mucocutaneous lymph node syndrome
Early intravenous gamma-globulin treatment for Kawasaki disease: the nationwide surveys in Japan (Wanitkun) (Letter); (Muta and Ishii) (Reply). 2005;146:149-50
Infliximab treatment for refractory Kawasaki syndrome (Burns et al). 2005;146:662-7
Mucopolysaccharidosis IV
Morquio's disease (Fernhoff). 2005;146:558 (50 years ago)

Multicystic dysplastic kidney; *see* **Kidney diseases**
Muscle hypotonia
Can clinical signs identify newborns with neuromuscular disorders? (Vasta et al). 2005;146:73-9
Mutation
Central nervous system hyperexcitability associated with glutamate dehydrogenase gain of function mutations (Raizen et al). 2005; 146:388-94
A common mutation in the surfactant protein C gene associated with lung disease (Cameron et al). 2005;146:370-5
Detection of autoimmune regulator gene mutations in children with type 2 autoimmune hepatitis and extrahepatic immune-mediated diseases (Lankisch et al). 2005;146:839-42 (CLO)
Homozygous factor X gene mutations Gly380Arg and Tyr163delAT are associated with perinatal intracranial hemorrhage (Herrmann et al). 2005;146:128-30 (CLO)
Hyperinsulinism of infancy associated with a novel splice site mutation in the *SCHAD* gene (Hussain et al). 2005;146:706-8 (CLO)
Liver transplantation as definitive treatment for a factor V Leiden mutation (Dunn et al). 2005;146:418-22 (CLO)
Permanent neonatal diabetes in an Asian infant (Porter et al). 2005; 146:131-3 (CLO)
Phenotypic and genetic characterization of patients with features of "nonclassic" forms of cystic fibrosis (Groman et al). 2005;146: 675-80

N

Nails
Congenital malalignment of the great toenails mimicking onychomycosis (Perlis and Telang). 2005;146:575 (Insights)
National Health and Nutrition Examination Survey
Prevalence of overweight in children with developmental disorders in the continuous National Health and Nutrition Examination Survey (NHANES) 1999-2002 (Bandini et al). 2005;146: 738-43
Natural killer cells; *see* **Killer cells, natural**
Necrotizing enterocolitis; *see* **Enterocolitis, pseudomembranous**
Neonatal intensive care units; *see* **Intensive care units, neonatal**
Neonatal screening
Does newborn screening save money? The difference between cost-effective and cost-saving interventions (Grosse). 2005;146: 168-70 (Invited commentary)
High protein diet mimics hypertyrosinemia in newborn infants (Techakittiroj et al). 2005;146:281-2 (CLO)
The Parkland Memorial Hospital experience in ensuring compliance with universal newborn hearing screening follow-up (Shoup et al). 2005;146:66-72
Policy issues for expanding newborn screening programs: the cystic fibrosis newborn screening experience in the United States (Wilfond and Gollust). 2005;146:668-74
Screening for congenital cytomegalovirus infection: a tapestry of controversies (Demmler). 2005;146:162-4 (Editorial)
A serologic strategy for detecting neonates at risk for congenital cytomegalovirus infection (Naessens et al). 2005;146:194-7
Neonate; *see* **Infant, newborn**
Nerve agents
Pediatric poisoning from trimedoxime (TMB4) and atropine automatic injectors (Kozer et al). 2005;146:41-4
Safety of adult nerve agent autoinjectors in children (Aaron). 2005; 146:8-10 (Editorial)
Netherlands
Physicians' willingness to grant requests for assistance in dying for children: a study of hypothetical cases (Vrakking et al). 2005;146: 611-7
Neuroblastoma
Classification of cardiovascular malformations associated with neuroblastoma (Lin et al) (Letter); (George et al) (Reply); (Clark) (Reply). 2005;146:439-43
Neurodevelopment; *see* **Child development**
Neurology
Comparing the supply of pediatric subspecialists and child neurologists (Werner and Polsky). 2005;146:20-5
Neuromuscular diseases
Can clinical signs identify newborns with neuromuscular disorders? (Vasta et al). 2005;146:73-9
Neuropsychological tests
Neuropsychological and psychosocial function in children with a history of snoring or behavioral sleep problems (Blunden et al). 2005;146:780-6
Newborn infant; *see* **Infant, newborn**
Nitric oxide
Inhaled nitric oxide for preterm infants: a therapy in search of an indication? The search continues (Finer). 2005;146:301-3 (Editorial)
The safety and efficacy of nitric oxide therapy in premature infants (Hascoet et al). 2005;146:318-23
Non-adherence to therapy; *see* **Patient compliance**
Nordic children; *see* **Scandinavia**
Nuclear family
Child-feeding practices in children with Down syndrome and their siblings (O'Neill et al). 2005;146:234-8
The Sibling Center: a pilot program for siblings of children and adolescents with a serious medical condition (Fanos et al). 2005; 146:831-5 (Invited commentary)
Nutrition
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146:489-93
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5 (Editorial)
Growth hormone treatment enhances nutrition and growth in children with cystic fibrosis receiving enteral nutrition (Hardin et al). 2005;146:324-8
Prevalence of overweight in children with developmental disorders in the continuous National Health and Nutrition Examination Survey (NHANES) 1999-2002 (Bandini et al). 2005;146: 738-43

O

Obesity
Are soft drinks a scapegoat for childhood obesity? (Murray et al). 2005;146:586-90 (Invited commentary)
Effects of exercise training on vascular function in obese children (Levent et al) (Letter); (Green et al) (Reply). 2005;146:296-7
"Globesity" and units of measurements (Schwartz) (Letter); (Inge) (Reply). 2005;146:577
Lifestyle-only intervention attenuates the inflammatory state associated with obesity: a randomized controlled study in adolescents (Balagopal et al). 2005;146:342-8
Modest lifestyle intervention attenuates the inflammatory state in children (Steinberger). 2005;146:308-9 (Editorial)
Obesity and asthma (Hasan and Nolan) (Letter); (To et al) (Reply). 2005;146:714-5
The overweight adolescent: clinical and ethical issues in intensive treatments for pediatric obesity (Cuttler et al). 2005;146:559-64 (Grand rounds)
Racial and etiopathologic dichotomies in insulin hypersecretion and resistance in obese children (Preeyasombat et al). 2005;146: 474-81
Two-year follow-up results for Hip-Hop to Health Jr.: a randomized controlled trial for overweight prevention in preschool minority children (Fitzgibbon et al). 2005;146:618-25
Onychomycosis
Congenital malalignment of the great toenails mimicking onychomycosis (Perlis and Telang). 2005;146:575 (Insights)
Orbital diseases
Orbital varices diagnosed as episcleritis in a child with juvenile idiopathic arthritis (Misra and Edelsten). 2005;146:574 (Insights)

Orthotic devices
Management of deformational plagiocephaly: repositioning versus orthotic therapy (Graham et al). 2005;146:258-62
Osmolar concentration
Conductivity determined by a new sweat analyzer compared with chloride concentrations for the diagnosis of cystic fibrosis (Barben et al). 2005;146:183-8
Testing diagnostic tests: why size matters (Funk and LeGrys). 2005;146:159-62 (Editorial)
Osteoporosis
Bone densitometry in pediatric populations: discrepancies in the diagnosis of osteoporosis by DXA and CT (Wren et al). 2005; 146:776-9
Quantitative bone analysis in children: current methods and recommendations (Specker and Schoenau). 2005;146:726-31
Radiographic vertebral morphology: a diagnostic tool in pediatric osteoporosis (Mäkitie et al). 2005;146:395-401
Speed of sound: relation to geometric characteristics of bone in children, adolescents, and adults (Fricke et al). 2005;146:764-8
Overdose
Toxic clonidine ingestion in children (Spiller et al). 2005;146:263-6
Overweight; *see* **Body weight**
Ovum implantation
Dizygotic twin pregnancy conceived with assisted reproductive technology associated with chromosomal anomaly, imprinting disorder, and monochorionic placentation (Yoon et al). 2005; 146:565-7 (CLO)
Pediatricians beware: the age of ARTS is upon us (Hall). 2005;146: 450-2 (Editorial)
Oxygen
The control of oxygen therapy for the prevention of retrolental fibroplasia (Tarnow-Mordi). 2005;146:335 (50 years ago)

P

Pancreas
Combining unprotected pancreatic enzymes with pH-sensitive enteric-coated microspheres does not improve nutrient digestion in patients with cystic fibrosis (Kalnins et al). 2005;146:489-93
Pancreatic enzyme therapy and clinical outcomes in patients with cystic fibrosis (Baker et al). 2005;146:189-93
Papaverine
Papaverine prolongs patency of peripheral arterial catheters in neonates (Griffin and Siadaty). 2005;146:62-5
Parenteral nutrition
Glutamine supplement with parenteral nutrition decreases whole body proteolysis in low birth weight infants (Kalhan et al). 2005; 146:642-7
Parenteral nutrition, home
Satisfaction in different life domains in children receiving home parenteral nutrition and their families (Gottrand et al). 2005; 146:793-7
Parents
Financial compensation to adolescents for participation in biomedical research: adolescent and parent perspectives in seven studies (Scherer et al). 2005;146:552-8
Liberal visiting policies for children in hospitals (Green). 2005;146: 792 (50 years ago)
Parotitis
Recurrent bacterial parotitis (Long). 2005;146:763 (50 years ago)
Parry-Romberg syndrome
Parry-Romberg syndrome with fatal brain stem involvement (Sathornsumetee et al). 2005;146:429-31 (CLO)
Patient compliance
Family asthma management routines: connections to medical adherence and quality of life (Fiese et al). 2005;146:171-6
Non-adherence with asthma therapy: more than just forgetting (Rand). 2005;146:157-9 (Editorial)
The Parkland Memorial Hospital experience in ensuring compliance with universal newborn hearing screening follow-up (Shoup et al). 2005;146:66-72
Patterns of quick-relief and long-term controller medication use in pediatric asthma (Walders et al). 2005;146:177-82
Patient education
Accidents: a major child health problem (Barron). 2005;146:551 (50 years ago)
Patient satisfaction
Satisfaction in different life domains in children receiving home parenteral nutrition and their families (Gottrand et al). 2005; 146:793-7
Pediatric hospitals; *see* **Hospitals, pediatric**
Pediatrics
Changes in the proportion and volume of care provided to children by generalists and subspecialists (Freed et al). 2005;146:14-9
Comparing the supply of pediatric subspecialists and child neurologists (Werner and Polsky). 2005;146:20-5
Increasing utilization of general pediatricians and pediatric subspecialists: can the workforce meet the need? (Fiser). 2005;146: 3-5 (Editorial)
Peptic ulcer
Care at the front line: clinical decisions in the management of pediatric acid–related disorders (Gold). 2005;146:S1-2
Perinatal centers; *see* **Intensive care units, neonatal**
Peripheral arterial catheterization; *see* **Catheterization, peripheral**
pH; *see* **Hydrogen-ion concentration**
Pharyngitis
Tumor necrosis factor receptor–associated periodic syndrome in a young adult who had features of periodic fever, aphthous stomatitis, pharyngitis, and adenitis as a child (Saulsbury and Wispelwey). 2005;146:283-5 (CLO)
Phenotype
Genetic analyses in two extended families with deletion 22Q11 syndrome: importance of extracardiac manifestations (Shooner et al). 2005;146:382-7
Midline defects in FG syndrome: does tethered spinal cord contribute to the phenotype? (Wang et al). 2005;146:537-41
Phenotypic and genetic characterization of patients with features of "nonclassic" forms of cystic fibrosis (Groman et al). 2005;146: 675-80
Physical activity; *see* **Exercise**
Physical education and training
Effects of exercise training on vascular function in obese children (Levent et al) (Letter); (Green et al) (Reply). 2005;146:296-7
Physical fitness
For school-age youth evidence based physical activity (Strong et al). 2005;146:732-7
Physical activity recommendations: where do we go from here? (Dietz). 2005;146:719-20 (Editorial)
Physicians
Physicians' willingness to grant requests for assistance in dying for children: a study of hypothetical cases (Vrakking et al). 2005;146: 611-7
Physicians, family
Changes in the proportion and volume of care provided to children by generalists and subspecialists (Freed et al). 2005;146:14-9
Increasing utilization of general pediatricians and pediatric subspecialists: can the workforce meet the need? (Fiser). 2005; 146:3-5 (Editorial)
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Pilot projects
The Sibling Center: a pilot program for siblings of children and adolescents with a serious medical condition (Fanos et al). 2005; 146:831-5 (Invited commentary)
Plagiocephaly; *see* **Head, abnormalities**
Plasma
Viral hepatitis and its risk from blood and plasma transfusions (Buchanan). 2005;146:687 (50 years ago)

Plasma cells
Interstitial plasma cell pneumonia (deMello). 2005;146:233 (50 years ago)
Pneumatosis cystoides intestinalis
Pneumatosis cystoides intestinalis in infancy (Warner). 2005;146: 53 (50 years ago)
Pneumocystis carinii
Interstitial plasma cell pneumonia (deMello). 2005;146:233 (50 years ago)
Pneumonia
Fatal acute fibrinous and organizing pneumonia in a child with juvenile dermatomyositis (Prahalad et al). 2005;146:289-92 (CLO)
Interstitial plasma cell pneumonia (deMello). 2005;146:233 (50 years ago)
Poisoning
Pediatric poisoning from trimedoxime (TMB4) and atropine automatic injectors (Kozer et al). 2005;146:41-4
Safety of adult nerve agent autoinjectors in children (Aaron). 2005; 146:8-10 (Editorial)
Policy making
Policy issues for expanding newborn screening programs: the cystic fibrosis newborn screening experience in the United States (Wilfond and Gollust). 2005;146:668-74
Portal vein
Cholestasis in children with portal vein obstruction (Gauthier-Villars et al). 2005;146:568-73 (CLO)
Post-traumatic stress syndrome; *see* **Stress disorders, post-traumatic**
Poverty
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Predictive value of tests
Post-traumatic stress and its effect on health outcomes in children (Grupp-Phelan and Zatzick). 2005;146:309-10 (Editorial)
Pretreatment cortisol values may predict responses to hydrocortisone administration for the prevention of bronchopulmonary dysplasia in high-risk infants (Peltoniemi et al). 2005;146:632-7
Violence exposure and traumatic stress symptoms as additional predictors of health problems in high-risk children (Graham-Bermann and Seng). 2005;146:349-54
Pregnancy
Dizygotic twin pregnancy conceived with assisted reproductive technology associated with chromosomal anomaly, imprinting disorder, and monochorionic placentation (Yoon et al). 2005; 146:565-7 (CLO)
Prenatal diagnosis
Defining significant hydronephrosis (Garel and Grignon). 2005; 146:437 (Letter)
Prenatal exposure delayed effects
The correlation of deficits in IQ with midface and digit hypoplasia in children exposed in utero to anticonvulsant drugs (Holmes et al). 2005;146:118-22
Preschool child; *see* **Child, preschool**
Prevalence
The global spread of type 2 diabetes mellitus in children and adolescents (Pinhas-Hamiel and Zeitler). 2005;146:693-700
Incidence and prevalence of HIV encephalopathy in children with HIV infection receiving highly active anti-retroviral therapy (HAART) (Chiriboga et al). 2005;146:402-7
Neonatal renal venous thrombosis: clinical outcomes and prevalence of prothrombotic disorders (Marks et al). 2005;146: 811-6
Prevalence of diarrheagenic *Escherichia coli* in acute childhood enteritis: a prospective controlled study (Cohen et al). 2005;146: 54-61
Prevalence of overweight in children with developmental disorders in the continuous National Health and Nutrition Examination Survey (NHANES) 1999-2002 (Bandini et al). 2005;146: 738-43
Prevalence, symptoms and outcome of constipation in infants and toddlers (Loening-Baucke). 2005;146:359-63
Prevention
Accidents: a major child health problem (Barron). 2005;146:551 (50 years ago)
Progeria
Reduced adiponectin and HDL cholesterol without elevated C-reactive protein: clues to the biology of premature atherosclerosis in Hutchinson-Gilford Progeria syndrome (Gordon et al). 2005;146:336-41
Prone position
Management of deformational plagiocephaly: repositioning versus orthotic therapy (Graham et al). 2005;146:258-62
Propofol
Widening sedation availability (Barbi et al) (Letter); (Gozal and Gozal) (Reply). 2005;146:438-9
Protein C
A common mutation in the surfactant protein C gene associated with lung disease (Cameron et al). 2005;146:370-5
Protein-glutamine gamma-glutamyltransferase
Need for quantitative assessment of transglutaminase autoantibodies for celiac disease in screening-identified children (Liu et al). 2005;146:494-9
Proteins
Diet, immunity, and autistic spectrum disorders (Murch). 2005; 146:582-4 (Editorial)
Evaluation of an association between gastrointestinal symptoms and cytokine production against common dietary proteins in children with autism spectrum disorders (Jyonouchi et al). 2005; 146:605-10
High protein diet mimics hypertyrosinemia in newborn infants (Techakittiroj et al). 2005;146:281-2 (CLO)
Proteolysis
Glutamine supplement with parenteral nutrition decreases whole body proteolysis in low birth weight infants (Kalhan et al). 2005; 146:642-7
Proton pump
Asthma and gastroesophageal reflux disease in children: exploring the relationship (Gold). 2005;146:S13-20
Helicobacter pylori infection: detection, investigation, and management (Czinn). 2005;146:S21-6
Pseudomonas aeruginosa
An epidemiological study of *Pseudomonas aeruginosa* (Bacillus pyocyaneus) in premature infants in the presence and absence of infection (Stoll). 2005;146:425 (50 years ago)
Pseudomonas infections in infants associated with high-humidity environments (Long). 2005;146:758 (50 years ago)
Psychomotor performance
Impact of zinc supplementation on mental and psychomotor scores of children aged 12 to 18 months: a randomized, double-blind trial (Taneja et al). 2005;146:506-11
Psychosocial support; *see* **Social support**
Puberty
Pubertal upregulation of erythropoiesis in boys is determined primarily by androgen (Hero et al). 2005;146:245-52
Treatment of adolescents with gynecomastia (Malozowski) (Letter); (Mauras) (Letter); (Lawrence et al) (Reply). 2005; 146:576-7
Puberty, precocious
The role of leuprolide acetate therapy in triggering auto-immune thyroiditis (Haller and Schatz) (Letter); (Eyal and Rose) (Reply). 2005;146:294-5

Public funding; *see* **Financing, government**
Pulmonary diseases; *see* **Lung diseases**
Pulmonary fibrosis
A common mutation in the surfactant protein C gene associated with lung disease (Cameron et al). 2005;146:370-5
Pulmonary heart disease
The relationship of agenesis of the lung to emphysema and cor pulmonale (Whitsett). 2005;146:387 (50 years ago)
Pulmonary surfactants
A common mutation in the surfactant protein C gene associated with lung disease (Cameron et al). 2005;146:370-5
Purpura, thrombocytopenic
Chronic immune thrombocytopenic purpura in children: assessment of rituximab treatment (Wang et al). 2005;146:217-21
Purpura, thrombocytopenic, idiopathic
Age-dependent differences in Nordic children with ITP (Rosthøj et al). 2005;146:151-2 (Letter)
Pyelectasis
Defining significant hydronephrosis (Garel and Grignon). 2005; 146:437 (Letter)

Q

Quality of health care
Criteria for identification of comprehensive pediatric hospitals and referral regions (Kanter and Dexter). 2005;146:26-9
Quality of life
Family asthma management routines: connections to medical adherence and quality of life (Fiese et al). 2005;146:171-6
Non-adherence with asthma therapy: more than just forgetting (Rand). 2005;146:157-9 (Editorial)
Satisfaction in different life domains in children receiving home parenteral nutrition and their families (Gottrand et al). 2005; 146:793-7

R

Race factors
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22
Racial and etiopathologic dichotomies in insulin hypersecretion and resistance in obese children (Preeyasombat et al). 2005;146: 474-81
Radiography
Radiographic vertebral morphology: a diagnostic tool in pediatric osteoporosis (Mäkitie et al). 2005;146:395-401
Raloxifene
Treatment of adolescents with gynecomastia (Malozowski) (Letter); (Mauras) (Letter); (Lawrence et al) (Reply). 2005; 146:576-7
Receptors, estrogen
Treatment of adolescents with gynecomastia (Mauras) (Letter); (Lawrence et al) (Reply). 2005;146:576-7
Recurrence
Recurrent bacterial parotitis (Long). 2005;146:763 (50 years ago)
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
Referral and consultation
Criteria for identification of comprehensive pediatric hospitals and referral regions (Kanter and Dexter). 2005;146:26-9
Registries
Children with early-onset inflammatory bowel disease (IBD): analysis of a pediatric IBD consortium registry (Heyman et al). 2005;146:35-40
A collaborative effort to define the epidemiology of pediatric inflammatory bowel disease: what can we learn from children with early-onset disease? (Moyer). 2005;146:7-8 (Editorial)
Renal veins
Neonatal renal venous thrombosis: clinical outcomes and prevalence of prothrombotic disorders (Marks et al). 2005;146:811-6
Reproduction techniques
Dizygotic twin pregnancy conceived with assisted reproductive technology associated with chromosomal anomaly, imprinting disorder, and monochorionic placentation (Yoon et al). 2005; 146:565-7 (CLO)
Pediatricians beware: the age of ARTS is upon us (Hall). 2005;146: 450-2 (Editorial)
Research
Changing needs for pediatric education in the twenty-first century (Stein and Stanton). 2005;146:445-6
Children as clinical research subjects (Chesney). 2005;146: 579-80
Financial compensation to adolescents for participation in biomedical research: adolescent and parent perspectives in seven studies (Scherer et al). 2005;146:552-8
Resistance, drug, microbial; *see* **Drug resistance, microbial**
Respiratory chain; *see* **Electron transport**
Respiratory function tests
Lung function at term reflects severity of bronchopulmonary dysplasia (Hjalmarson and Sandberg). 2005;146:86-90
Respiratory sounds
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
Respiratory syncytial viruses
Isolation and bronchiolitis (Rosenberg) (Letter); (Muething) (Reply). 2005;146:846
Respiratory tract infections
Antibiotic prescribing for upper respiratory tract infection: the importance of diagnostic uncertainty (Arnold et al). 2005;146: 222-6
Retinal hemorrhage
Retinal haemorrhages as proof of abusive head injury (Trenchs et al) (Letter); (Laskey et al) (Reply). 2005;146:437-8
Retinal necrosis syndrome, acute
Herpes simplex virus type 2 acute retinal necrosis 9 years after neonatal herpes (Landry et al). 2005;146:836-8 (CLO)
Retinopathy of prematurity
The control of oxygen therapy for the prevention of retrolental fibroplasia (Tarnow-Mordi). 2005;146:335 (50 years ago)
Risk factors
Chronic cholestasis and dyslipidemia: what is the cardiovascular risk? (Black). 2005;146:306-7 (Editorial)
Evaluation of risk for atherosclerosis in Alagille syndrome and progressive familial intrahepatic cholestasis: two congenital cholestatic diseases with different lipoprotein metabolisms (Nagasaka et al). 2005;146:329-35
First fracture is associated with increased risk of new fractures during growth (Goulding et al). 2005;146:286-8 (CLO)
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22
A population-based comparison of BMI percentiles and waist-to-height ratio for identifying cardiovascular risk in youth (Kahn et al). 2005;146:482-8
Population-based study of incidence and risk factors for cerebral edema in pediatric diabetic ketoacidosis (Lawrence et al). 2005; 146:688-92
Risk of hepatocellular carcinoma in liver mitochondrial respiratory chain disorders (Scheers et al). 2005;146:414-7 (CLO)
A serologic strategy for detecting neonates at risk for congenital cytomegalovirus infection (Naessens et al). 2005;146:194-7
Viral hepatitis and its risk from blood and plasma transfusions (Buchanan). 2005;146:687 (50 years ago)
Rituximab
Chronic immune thrombocytopenic purpura in children: assessment of rituximab treatment (Wang et al). 2005;146:217-21

S

Safety
Chronic immune thrombocytopenic purpura in children: assessment of rituximab treatment (Wang et al). 2005;146:217-21
Inhaled nitric oxide for preterm infants: a therapy in search of an indication? The search continues (Finer). 2005;146:301-3 (Editorial)
Is there clinical evidence supporting the use of botanical dietary supplements in children? (Hrastinger et al). 2005;146:311-7
Safety of adult nerve agent autoinjectors in children (Aaron). 2005;146:8-10 (Editorial)
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
The safety and efficacy of nitric oxide therapy in premature infants (Hascoet et al). 2005;146:318-23
Widening sedation availability (Barbi et al) (Letter); (Gozal and Gozal) (Reply). 2005;146:438-9

Salmonella nontyphi
Trap-door sternum in sickle cell disease (Knight-Madden et al). 2005;146:845 (Insights)

Sarkin, Richard T
Untimely loss: lasting legacy (Morgenstern et al). 2005;146:299-300

Satisfaction, patient; *see* **Patient satisfaction**

Scabies
Hypereosinophilia in red scaly infants with scabies (Haim et al). 2005;146:712 (Insights)

Scandinavia
Age-dependent differences in Nordic children with ITP (Rosthøj et al). 2005;146:151-2 (Letter)

Scleritis
Orbital varices diagnosed as episcleritis in a child with juvenile idiopathic arthritis (Misra and Edelsten). 2005;146:574 (Insights)

Screening; *see* **Mass screening**

Screening, neonatal; *see* **Neonatal screening**

Seizures
Parry-Romberg syndrome with fatal brain stem involvement (Sathornsumetee et al). 2005;146:429-31 (CLO)

Selection bias
Selecting families for successful insulin pump therapy (Williams et al) (Letter); (DiMeglio et al) (Reply). 2005;146:713-4

Serious illness; *see* **Critical illness**

Severe combined immunodeficiency
Long-term survival in severe combined immune deficiency: the role of persistent maternal engraftment (Tezcan et al). 2005;146:137-40 (CLO)

Sex
Sex differences in patients referred for evaluation of poor growth (Grimberg et al). 2005;146:212-6

Sex behavior
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22

Sex chromosome abnormalities
Frasier syndrome comes full circle: genetic studies performed in an original patient (Wang et al). 2005;146:843-4 (CLO)

Shigella dysenteriae
Confirmation of an old adage: you find what you seek (Sherman and Tarr). 2005;146:11-3 (Editorial)

Short bowel syndrome
Serum citrulline levels correlate with enteral tolerance and bowel length in infants with short bowel syndrome (Rhoads et al). 2005;146:542-7

Siblings; *see* **Nuclear family**

Signs and symptoms
Prevalence, symptoms and outcome of constipation in infants and toddlers (Loening-Baucke). 2005;146:359-63

Skeleton, abnormalities
Morquio's disease (Fernhoff). 2005;146:558 (50 years ago)

Skin diseases
Hypereosinophilia in red scaly infants with scabies (Haim et al). 2005;146:712 (Insights)

Skull
Craniofacial features with growth hormone treatment (Carvalho et al) (Letter); (Segal et al) (Reply). 2005;146:295-6

Sleep
Deformational brachycephaly in supine-sleeping infants (Graham et al). 2005;146:253-7
Management of deformational plagiocephaly: repositioning versus orthotic therapy (Graham et al). 2005;146:258-62
Neuropsychological and psychosocial function in children with a history of snoring or behavioral sleep problems (Blunden et al). 2005;146:780-6

Snoring
Neuropsychological and psychosocial function in children with a history of snoring or behavioral sleep problems (Blunden et al). 2005;146:780-6

Social behavior
Social consequences in adult life of end-stage renal disease in childhood (Groothoff et al). 2005;146:512-7

Social support
Neuropsychological and psychosocial function in children with a history of snoring or behavioral sleep problems (Blunden et al). 2005;146:780-6
The Sibling Center: a pilot program for siblings of children and adolescents with a serious medical condition (Fanos et al). 2005;146:831-5 (Invited commentary)

Sodium
Sodium transport in airway epithelium correlates with lung compliance in healthy newborn infants (Helve et al). 2005;146:273-6 (CLO)

Somatotropin
Craniofacial features with growth hormone treatment (Carvalho et al) (Letter); (Segal et al) (Reply). 2005;146:295-6
Growth failure in cystic fibrosis: a true need for anabolic agents? (Colombo and Battezzati). 2005;146:303-5 (Editorial)
Growth hormone (GH) treatment to final height in children with idiopathic short stature: evidence for a dose effect (Wit et al). 2005;146:45-53
Growth hormone treatment enhances nutrition and growth in children with cystic fibrosis receiving enteral nutrition (Hardin et al). 2005;146:324-8
A tale of two centimeters (Rosenfeld). 2005;146:10-1 (Editorial)

Sonography; *see* **Ultrasonography**

Sound
Speed of sound: relation to geometric characteristics of bone in children, adolescents, and adults (Fricke et al). 2005;146:764-8

Specialties, medical
Changes in the proportion and volume of care provided to children by generalists and subspecialists (Freed et al). 2005;146:14-9
Comparing the supply of pediatric subspecialists and child neurologists (Werner and Polsky). 2005;146:20-5
Increasing utilization of general pediatricians and pediatric subspecialists: can the workforce meet the need? (Fiser). 2005;146:3-5 (Editorial)

Speech
Infant speech development: a report of the study of one child by magnetic tape recordings (Saigal and Lane). 2005;146:536 (50 years ago)

Spinal cord
Midline defects in FG syndrome: does tethered spinal cord contribute to the phenotype? (Wang et al). 2005;146:537-41

State Children's Health Insurance
Influence of public funding on health care for children (Michael and Lewy). 2005;146:717-8

Statistics
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50

Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Sternum, abnormalities
Trap-door sternum in sickle cell disease (Knight-Madden et al). 2005;146:845 (Insights)
Stomatitis, aphthous
Tumor necrosis factor receptor–associated periodic syndrome in a young adult who had features of periodic fever, aphthous stomatitis, pharyngitis, and adenitis as a child (Saulsbury and Wispelwey). 2005;146:283-5 (CLO)
Stool; *see* **Feces**
Stress disorders, post-traumatic
Post-traumatic stress and its effect on health outcomes in children (Grupp-Phelan and Zatzick). 2005;146:309-10 (Editorial)
Violence exposure and traumatic stress symptoms as additional predictors of health problems in high-risk children (Graham-Bermann and Seng). 2005;146:349-54
Suction
Gastric suction at birth (Conklin et al) (Letter); (Anand et al) (Reply). 2005;146:152-3
Sugar consumption; *see* **Carbohydrates**
Suicide, assisted
Physicians' willingness to grant requests for assistance in dying for children: a study of hypothetical cases (Vrakking et al). 2005;146:611-7
Surveying euthanasia practices: methods and morality (Frader). 2005;146:584-5 (Editorial)
Supine position
Deformational brachycephaly in supine-sleeping infants (Graham et al). 2005;146:253-7
Management of deformational plagiocephaly: repositioning versus orthotic therapy (Graham et al). 2005;146:258-62
Surfactants, pulmonary; *see* **Pulmonary surfactants**
Surveys, health; *see* **Health surveys**
Survival
Long-term survival in severe combined immune deficiency: the role of persistent maternal engraftment (Tezcan et al). 2005;146:137-40 (CLO)
Pretreatment cortisol values may predict responses to hydro cortisone administration for the prevention of bronchopulmonary dysplasia in high-risk infants (Peltoniemi et al). 2005;146:632-7
Suspensions
Safety of budesonide inhalation suspension in infants aged six to twelve months with mild to moderate persistent asthma or recurrent wheeze (Berger et al). 2005;146:91-5
Sweat
Conductivity determined by a new sweat analyzer compared with chloride concentrations for the diagnosis of cystic fibrosis (Barben et al). 2005;146:183-8
Testing diagnostic tests: why size matters (Funk and LeGrys). 2005;146:159-62 (Editorial)
Symptoms; *see* **Signs and symptoms**
Syncope
Syncope in children: diagnostic tests have a high cost and low yield (Steinberg and Knilans). 2005;146:355-8
Systemic lupus erythematosus; *see* **Lupus erythematosus, systemic**

T

T-lymphocytes
Long-term survival in severe combined immune deficiency: the role of persistent maternal engraftment (Tezcan et al). 2005;146:137-40 (CLO)
Tacrolimus
A novel approach to managing variation: outpatient therapeutic monitoring of calcineurin inhibitor blood levels in liver transplant recipients (Bucuvalas et al). 2005;146:744-50
Statistical process control and calcineurin inhibitor management (Dunn). 2005;146:720-1 (Editorial)
Tamoxifen
Treatment of adolescents with gynecomastia (Malozowski) (Letter); (Mauras) (Letter); (Lawrence et al) (Reply). 2005;146:576-7
Tape recording
Infant speech development: a report of the study of one child by magnetic tape recordings (Saigal and Lane). 2005;146:536 (50 years ago)
Teens; *see* **Adolescence**
Thoracic vertebrae
Radiographic vertebral morphology: a diagnostic tool in pediatric osteoporosis (Mäkitie et al). 2005;146:395-401
Thorax
Ten-month-old boy with persistent fever and a chest mass (Opsimos et al). 2005;146:267-72 (Grand rounds)
Thrombocytopenia
Severe thrombocytopenia in a neonate with congenital HIV infection (Tighe et al). 2005;146:408-13 (Grand rounds)
Thrombocytopenic purpura; *see* **Purpura, thrombocytopenic**
Thrombosis
Neonatal renal venous thrombosis: clinical outcomes and prevalence of prothrombotic disorders (Marks et al). 2005;146:811-6
Thyroiditis, autoimmune
Hashitoxicosis in children: clinical features and natural history (Nabhan et al). 2005;146:533-6
The role of leuprolide acetate therapy in triggering auto-immune thyroiditis (Haller and Schatz) (Letter); (Eyal and Rose) (Reply). 2005;146:294-5
Toddler; *see* **Child, preschool**
Toes
Congenital malalignment of the great toenails mimicking onychomycosis (Perlis and Telang). 2005;146:575 (Insights)
Tomography, x-ray computed
Bone densitometry in pediatric populations: discrepancies in the diagnosis of osteoporosis by DXA and CT (Wren et al). 2005;146:776-9
Quantitative bone analysis in children: current methods and recommendations (Specker and Schoenau). 2005;146:726-31
Speed of sound: relation to geometric characteristics of bone in children, adolescents, and adults (Fricke et al). 2005;146:764-8
Toxicity
Toxic clonidine ingestion in children (Spiller et al). 2005;146:263-6
Training support
Neonatal intubation: success of pediatric trainees (Leone et al). 2005;146:638-41
Transglutaminase; *see* **Protein-glutamine gamma-glutamyltransferase**
Treatment outcome
Pediatric hypereosinophilic syndrome (HES) differs from adult HES (Katz et al). 2005;146:134-6 (CLO)
Trends
Trends in severe bronchopulmonary dysplasia rates between 1994 and 2002 (Smith et al). 2005;146:469-73
Trimedoxime
Pediatric poisoning from trimedoxime (TMB4) and atropine automatic injectors (Kozer et al). 2005;146:41-4
Tumor necrosis factor
Infliximab treatment for refractory Kawasaki syndrome (Burns et al). 2005;146:662-7
Tumor necrosis factor receptor–associated periodic syndrome in a young adult who had features of periodic fever, aphthous stomatitis, pharyngitis, and adenitis as a child (Saulsbury and Wispelwey). 2005;146:283-5 (CLO)
Twins, dizygotic
Dizygotic twin pregnancy conceived with assisted reproductive technology associated with chromosomal anomaly, imprinting disorder, and monochorionic placentation (Yoon et al). 2005;146:565-7 (CLO)
Pediatricians beware: the age of ARTS is upon us (Hall). 2005;146:450-2 (Editorial)

Type 2 diabetes; *see* **Diabetes mellitus, non-insulin-dependent**
Tyrosine
High protein diet mimics hypertyrosinemia in newborn infants (Techakittiroj et al). 2005;146:281-2 (CLO)

U

Ultrasonography
The changing approach to multicystic dysplastic kidney in children (Welch and Wacksman). 2005;146:723-5 (Editorial)
Proximal focal femoral deficiency—a rare entity in the sonographic differential diagnosis of developmental dysplasia of the hip (Kayser et al). 2005;146:141 (Insights)
Quantitative bone analysis in children: current methods and recommendations (Specker and Schoenau). 2005;146:726-31
Routine voiding cystourethrography is of no value in neonates with unilateral multicystic dysplastic kidney (Ismaili et al). 2005;146:759-63
Ultrasonography, prenatal
Defining significant hydronephrosis (Garel and Grignon). 2005;146:437 (Letter)
Units of measurements; *see* **Weights and measures**
Upregulation
Pubertal upregulation of erythropoiesis in boys is determined primarily by androgen (Hero et al). 2005;146:245-52
Urban population
Impact of sexual networks on risk for gonorrhea and chlamydia among low-income urban African American adolescents (Ellen et al). 2005;146:518-22
Reliability of the health care delivery system (Muething and Kotagal). 2005;146:581-2 (Editorial)
Use of asthma guidelines by primary care providers to reduce hospitalizations and emergency department visits in poor, minority, urban children (Cloutier et al). 2005;146:591-7
Urea
Comparison of non-invasive tests to detect *Helicobacter pylori* infection in children and adolescents: results of a multicenter European study (Mégraud and European). 2005;146:198-203
Helicobacter pylori diagnostic tools: is it in the stool? (Elitsur). 2005;146:164-7 (Editorial)
Urination
The changing approach to multicystic dysplastic kidney in children (Welch and Wacksman). 2005;146:723-5 (Editorial)
Routine voiding cystourethrography is of no value in neonates with unilateral multicystic dysplastic kidney (Ismaili et al). 2005;146:759-63
The time of passage of the first stool and first urine by the newborn infant (Green). 2005;146:211 (50 years ago)
Uveitis
Uveitis associated with chickenpox (Long). 2005;146:381 (50 years ago)

V

Varicella; *see* **Chickenpox**
Varicose veins
Orbital varices diagnosed as episcleritis in a child with juvenile idiopathic arthritis (Misra and Edelsten). 2005;146:574 (Insights)
Ventilation
Extremely low birthweight neonates with protracted ventilation: mortality and 18-month neurodevelopmental outcomes (Walsh et al). 2005;146:798-804
Vertebrae, lumbar; *see* **Lumbar vertebrae**
Vertebrae, thoracic; *see* **Thoracic vertebrae**
Vertigo
Creatine kinase MB (CK-MB) in benign paroxysmal vertigo of childhood: a new diagnostic marker (Rödöö and Hellberg). 2005;146:548-51
Violence
Post-traumatic stress and its effect on health outcomes in children (Grupp-Phelan and Zatzick). 2005;146:309-10 (Editorial)
Violence exposure and traumatic stress symptoms as additional predictors of health problems in high-risk children (Graham-Bermann and Seng). 2005;146:349-54
Viral hepatitis; *see* **Hepatitis, viral, human**
Visitors to patients
Liberal visiting policies for children in hospitals (Green). 2005;146:792 (50 years ago)
Vitamin A
Inadequacy of IV vitamin A supplementation of extremely preterm infants? (Mactier et al) (Letter); (West and Cummings) (Letter); (Ambalavanan et al) (Reply). 2005;146:846-8
Voiding; *see* **Urination**

W

Waist
A population-based comparison of BMI percentiles and waist-to-height ratio for identifying cardiovascular risk in youth (Kahn et al). 2005;146:482-8
Weight gain
The overweight adolescent: clinical and ethical issues in intensive treatments for pediatric obesity (Cuttler et al). 2005;146:559-64 (Grand rounds)
Weights and measures
"Globesity" and units of measurements (Schwartz) (Letter); (Inge) (Reply). 2005;146:577
Wheezing; *see* **Respiratory sounds**
Wilms' tumor
Frasier syndrome comes full circle: genetic studies performed in an original patient (Wang et al). 2005;146:843-4 (CLO)
Workforce; *see* **Manpower**

Y

Youth; *see* **Adolescence**

Z

Zinc
Impact of zinc supplementation on mental and psychomotor scores of children aged 12 to 18 months: a randomized, double-blind trial (Taneja et al). 2005;146:506-11
